About JIIT

JIIT, a leading Engineering Institute was established in the year 2001 with the vision of becoming a center of excellence in the field of IT & related emerging areas of education, training and research comparable to the best in the world for producing professionals who shall be leaders in innovation, entrepreneurship, creativity and management. The Institute offers Undergraduate, Post-graduate and Doctoral programs in the disciplines of Computer Science Engineering, Information Technology, Electronics & Communication Engineering, Biotechnology and Management. The Institute aims to develop technocrats with skill and capability to design and implement computer based systems, tool and equipments.

Department of Humanities and Social Sciences

The Department of Humanities and Social Sciences is a source of change-facilitators that serve to complement the existing and emerging educational programmes of the institute by imparting professional and behavioural competencies and, thereby, transforming students to become the New-age, Innovating, Competitive and Enterprising leaders in their chosen professions of service and technology. This department serves as a 'Center of Excellence' dedicated to the dissemination of professional and behavioural knowledge pertaining to communication skills, interpersonal and managerial skills. The department recognizes industry partnering in shaping humanities, social sciences and management education as a focus area.

About the FDP

The objective of this programme is to broaden and enhance the teaching and research skills of the teachers by exposing them with appropriate skills pertaining to teaching-learning process. Advent of technology has made a number of innovative pedagogies available for the teachers of higher education such as case-study methods, role-play, blended learning, flipped class room teaching etc. However, the use of the innovative teaching methods requires training and expertise on the part of the teacher. With this, FDP aims at fostering innovative teaching skills in teachers of higher education. Further, it aims at strengthening functional area of expertise and also focuses on enhancing abilities to conduct research on topics of utmost relevance. The FDP thus aims to facilitate and foster the required changes in the existing teaching-learning paradigm in order to improve the quality of professional education.
