International Conference on Advances in Biosciences and Biotechnology

ICABB - 2025
(29th - 31st January, 2025)

Innovations in Biomedicine,
Biotechnology and
Computational Biology

About the Conference

"International Conference on Advances in Biosciences and Biotechnology (ICABB) is an annual event to promote and encourage dialogues on scientific ideas and research. ICABB 2025 with the theme of **"Innovations in Biomedicine, Biotechnology and Computational Biology"** is the 8th edition in the series. ICABB 2025 will be an amalgamation of multi-disciplinary fields of Biotechnology providing opportunities for the exchange of ideas, scientific knowledge and experience among researchers, academicians, scientists and students from Biological, Medical and Computational fields.

The scientific program will include plenary/ keynote lectures along with oral and poster presentations under 5 major themes focusing on breakthroughs in Biotechnology, Microbial and Agricultural Biotechnology as well as upcoming current technological advancements.
