## IQAC - HANDBOOK

**Jaypee Institute of Information Technology, Noida**

(Declared as Deemed to be University u/s 3 of the UGC Act, 1956)

## **Vision**

To become a Centre of Excellence in the field of IT & related emerging areas education, training and research comparable to the best in the world for producing professionals who shall be leaders in innovation, entrepreneurship, creativity and management.

## **Mission**

- To develop as a benchmark University in emerging technologies.
- To provide state of the art teaching learning process and R&D environment.
- To harness human capital for sustainable competitive edge and social relevance.

## **Quality Policy**

Towards achieving the vision of producing professionals who shall be leaders in innovation, entrepreneurship, creativity and management, JIIT is committed to provide quality education, research, training and consultancy. It is also our commitment for improving the effectiveness of management practices toward knowledge, human capital for sustainable competitive edge and social relevance, to the satisfaction of all stake holders.

This is accomplished through:

- Periodic Quality Audits.
- Taking feedback of all stake holders.
- Communicating and overseeing all the academic and administrative processes of the Institute.
- Adhering to Compliance.

## 1. INTRODUCTION

Higher education is the key driver for long term social development, technology development and economic progress of a country, However, it is imperative to have higher education of top quality which provides (social and/or technical) values to students and prepares them to take up future challenges. The quality paradigm must be dynamic enough to accommodate changing environment and especially it must address the following:

- Demand for accountability.
- Dynamic changes in instructional delivery.
- Globalization of higher education.

Recognizing the need to establish and audit quality metrics in all academic and administrative processes, **Jaypee Institute of Information Technology, Noida (JIIT)** has established Institute Academic Quality Assurance Cell to audit and thereby improve the quality in academics and administration as well as in research processes.

Institute Quality Assurance Cell (IQAC) is responsible for the day to day administration of quality assurance at JIIT through the Institute Quality Assurance Process (IQAP)\*.

---

**\*IQAP:** Institute academic system; processes and procedures approved by the Academic Council of the Institute for activities and discipline.

**Mission**

- a. To promote and inculcate the culture of quality consciousness in all processes in the Institute.
- b. To implement and administer the IQAP (Institute Quality Assurance Process)
- c. To become the vehicle for quality improvement by regular reviews of audit reports.

**Goals**

To ensure, support and promote the quality of all its academic programmes and activities in conformity with the vision of JIIT. Quality Assurance is also to provide greater acceptance of JIIT degrees at the national and international level and for greater opportunities for student's employment.

**Responsibilities**

Institute Quality Assurance Cell (IQAC) is responsible for the implementation and administration of the IQAP. It interacts and works with Dean(s) for Graduate and Post Graduate Programmes, Registrar, Institute's units (departments/centres/research groups) for new programmes approval and cyclic programmes/courses reviews and also to support the implementation of review outcomes. IQAC is also responsible for auditing academic and administrative activities and utilization of the Institute resources.

IQAC is considerate and respectful of the autonomy of the faculty and academic activities, in curricular development, professional and R &D activities. The cell works both collaboratively and transparently and provides guidelines for reports and outcomes.

## **2. Administration**

### **Vice-Chancellor**

The Vice-Chancellor (VC) is responsible for Quality Assurance, its implementation and administration with the assistance from the Committee for the Institute Quality Assurance Cell, the Director, Dean(s) and Head of the Departments. VC monitors the progress of the implementation of recommendations agreed to in the action plan.

### **Committee for Institute Quality Assurance Cell (CIQAC)**

The committee is responsible for ensuring the implementation of the Institute Quality Assurance Process (IQAP) and quality auditing of academic and administrative activities. The committee through its Convener reports regularly to the Vice- Chancellor.

The committee through its sub-committees oversees the following activities of the academic units:

#### **2.1 Academic (Teaching and Learning)**

1. Development of expected outcomes and outputs of different programs considering national and international scenario.
2. Overseeing the development, establishment and revision of learning objectives and outcomes of different courses and programmes.
3. Overseeing the teaching learning resources and experiences of the students and the faculty members in theory and laboratory classes.
4. Ensuring the course coverage and the execution of the laid down evaluation processes.
5. Analyze the feedback of students, Alumni, faculty and use of equipments and prepare reports and recommendation.

These activities are to be further strengthened by benchmarking academic practices with the leading departments of other reputed institutes/universities. To ensure that, following activities are being followed at academic unit level:

- i) Evaluation process is being followed and syllabus covered.
- ii) Course activities and content covered are aligned in a coherent way.
- iii) Equipments, software's, manuals and lab class's guidelines/instructions are available and are used effectively.

- iv) Learning resources (articles, multimedia content, monographs, book chapters, books etc.) are created by faculty/students and are used effectively.
- v) Output/Outcome is benchmarked with the leading departments of other reputed Institutes/Universities.

## **2.2 Academic (Research)**

To ensure that the academic research objectives of the Institute are being met in the following academic research activities:

1. Publications
2. Sponsored R&D projects.
3. Master and Ph.D. degrees.
4. Patents.
5. Individual achievements/awards.
6. Review articles and books in developing areas.
7. Interdisciplinary Research.
8. Creation of databases for research and consultancy.
9. Benchmarking of academic units with other Universities/Institutes.

## **2.3 Stakeholder Relationship**

1. To oversee and analyse the feedback from external stake-holders [Employers & Industry, parents, regulators, Govt. and community, Alumni, professional institutions and suppliers] about the Institute and programmes.
2. To analyse the feedback of internal members [students, faculty, non-teaching employee and trustees].

## **2.4 Professional and Social Activities**

To oversee the quality of the following activities:

1. Consultancy.
2. Professional and special courses/workshops.

3. Conferences.
4. Industrial Interactions.
5. Social Activities.

### **2.5 Student activities and placements**

This committee oversees the various student activities and placement of students, the data and feedback is collected and analysed to prepare reports and recommendations.

### 3. Sub-Committees and their calendar

#### 3.1 Academic (Teaching and Learning)

The aim of the Academic (Teaching and Learning) subcommittee is to audit the teaching and learning academic activities of the institute. The aim is to be achieved by taking several measures as mentioned below:

- (i) To develop expected outcomes and outputs of different programs considering national and international scenario.
- (ii) To oversee the development, establishment and revision of learning objectives and outcomes of courses and programmes,
- (iii) To oversee the feedback of students including pass-out students and their expectations from the program/course.
- (iv) To oversee the feedback of faculty in carrying out lecture/lab classes' consideration learner centric concept and outcomes of the program/course.
- (v) To ensure that study material/course files are being maintained and updated.

For the above purpose various feedback forms have been developed. The details of the feedback forms are as following.

Sl. No.	Form No.	Title	Evaluation scale	Frequency
1.	QA-AC-1	Student feedback analysis theory course	1 to 10	Once in a semester for every course
2.	QA-AC-2	Student feedback analysis laboratory course	1 to 10	Once in a semester for every course
3.	QA-AC-3	Faculty feedback		Once in a semester
4.	QA-AC-4	Department feedback on use of equipments		Once in a year
5.	QA-AC-5,6	Feedback of educational experience of students visited abroad in academic exchange program		Once in a year

### Calendar for filling performas

<b>S. No.</b>	<b>Form No.</b>	<b>Title</b>	<b>To be filled by</b>	<b>Time of filling</b>
1.	QA-AC-1	Student feedback analysis theory course	Registrar / Dean Academic	Semester End (during May and December)
2.	QA-AC-2	Student feedback analysis laboratory course	Registrar / Dean Academic	Semester End (during May and December)
3.	QA-AC-3	Faculty feedback	Faculty	Semester End (during May and December)
4.	QA-AC-4	Department feedback on use of equipments	Department	Yearly (during May)
5.	QA-AC-5,6	Feedback of educational experience of students visited abroad in academic exchange program	Department	Yearly (during May)

A sample copy of course proposal is placed in Annexure I. The procedural steps currently being followed for introduction of new course and new program is described in Annexure II and Annexure III.

## Annexure I

### Detailed Syllabus

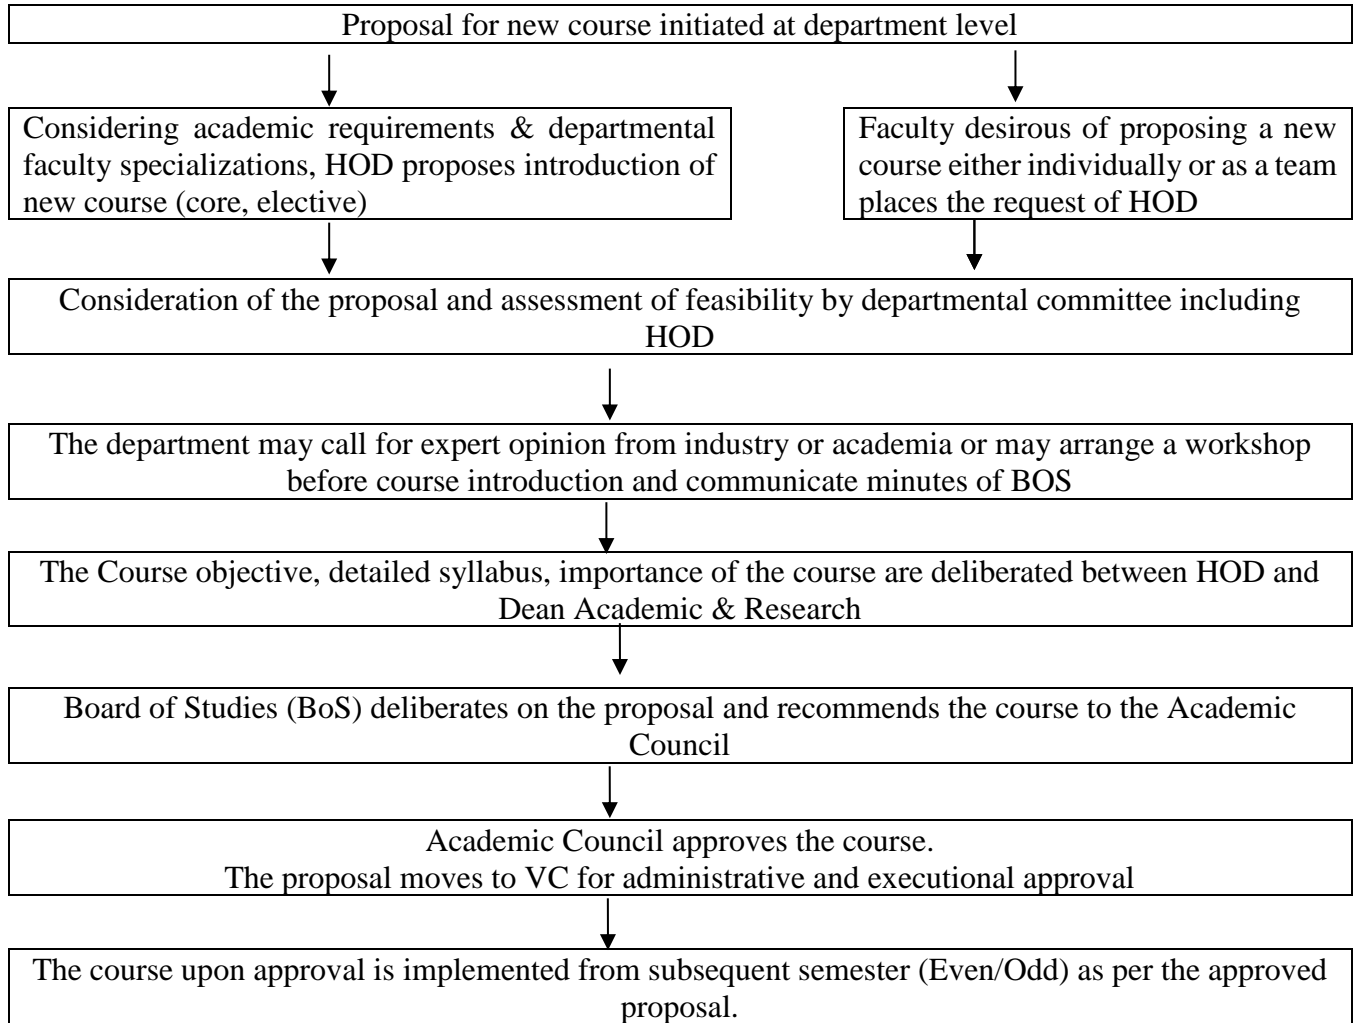

#### B. Tech. Course-Core

Subject Code	10B11PH111	Semester: Odd	Session 2016-17 Month from July to December	
Subject Name	PHYSICS I			
Credits	4	Contact Hours	4	
<b>Objective:</b> Broadly, the study of Physics improves one's ability to think logically about the problems of science and technology and obtain their solutions. The present course is aimed to offer a broad aspect of those areas of Physics which are specifically required as an essential background to all engineering students for their studies in higher semesters.				
<b>Learning Outcomes:</b> At the end of the course, the students will have sufficient scientific understanding of different phenomena associated with light, relativity, statistical physics, atomic physics and lasers.				
Module No.	Subtitle of the Module	Topics in the module	No. of Lectures for the module	Mapping with PEO's
1.	Physical Optics	Analytical treatment of interference, Intensity distribution of fringe system, Fresnel's biprism, Newton's rings, Michelson interferometer, Diffraction (limited to Fraunhofer class) from Single slit, double slit and Diffraction grating, Polarization, Phenomenological understanding of Birefringence, Principles of use of uniaxial crystals practical polarizers, compensators and wave plates, Production and analysis of completely polarized light. Optical activity, polarimeters.	15	
2.	Relativity	Michelson-Morley experiment, Lorentz transformations, Addition of velocities, Mass variation with velocity, Mass-energy relation.	5	
3.	Radiation	Black body radiation, Wein's law, Rayleigh Jeans law, Planck's law of radiation, Compton scattering.	4	
4.	Atomic Structure	Origin of spectral lines, spin and orbital angular momentum, Quantum numbers, Atoms in magnetic field, Zeeman effect.	5	

5.	Statistical Distributions and Lasers	Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac distributions and their applications. Principle and working of laser, Einstein A and B coefficients, Ruby Laser	11	
Total number of Lectures			40	
<b>Recommended Reading material:</b>				
1.	Ghatak, <i>Optics</i> , Tata McGraw Hill.			
2.	E. Hecht, <i>Optics</i> , Pearson Education.			
3.	F.A. Jenkins and H.E. White, <i>Fundamentals of optics</i> , Tata McGraw Hill			.
4.	R.S. Sirohi, <i>Wave Optics, Orient and Longman.</i>			
5.	Reshnick, <i>Relativity, New Age.</i>			
6.	A. Beiser, <i>Concepts of Modern Physics</i> , McGraw Hill International.			

## Annexure II

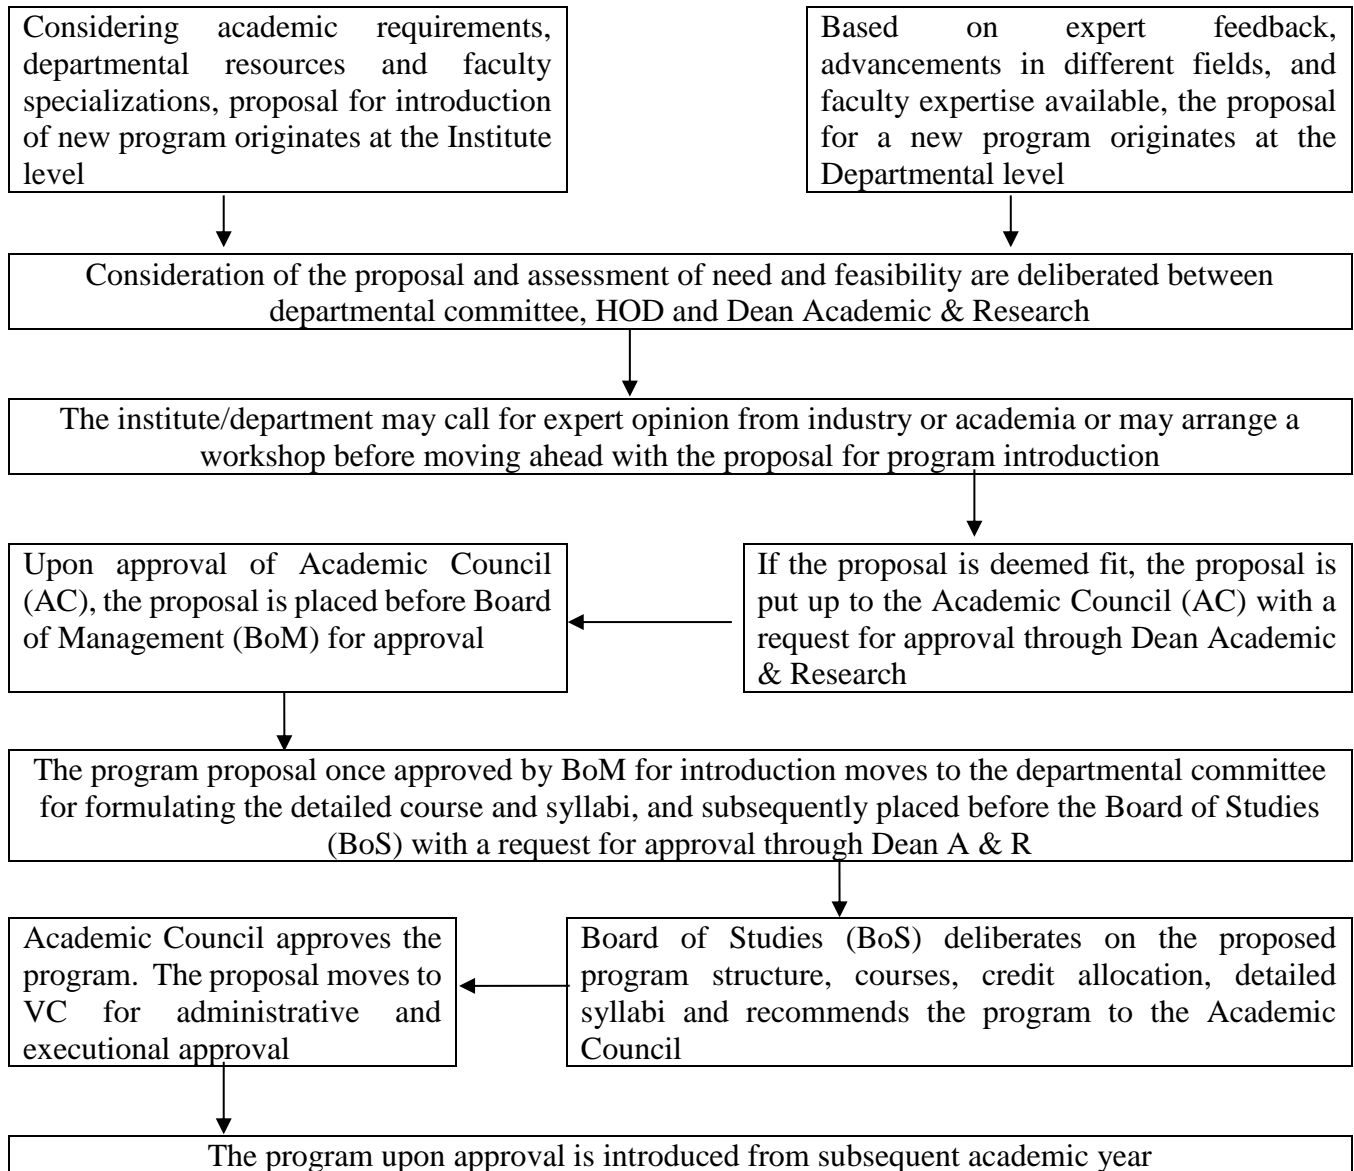

### Procedural steps currently followed for introduction of a new course

- For major revision of the course in progress, the steps will all be similar to course introduction as mentioned above, with an additional brainstorming session by the department where external experts could be invited.

### Annexure III

#### Procedural steps currently followed for introduction of a new program

### 3.2 Academic (Research)

The teaching and research activities of any institution of higher learning are its backbone. While the quality of teaching provided to its students helps them in achieving their desired goals and reflects in the performance in their career, the research environment prevailing in the particular institute distinguishes it from other such similar institutions. The aim of Academic (Research) sub-committee is to audit quality of research in the Institute ensuring that faculty/students are cognizant and periodically made sensitive about the issues of safety, environment, plagiarism and ethics while planning and performing research and publishing thereafter.

The academic research can be an outcome of the following:

- (i) Independent research carried out by the Faculty on their own,
- (ii) Research contribution coming out of Ph.D./P.G. dissertations
- (iii) Research contribution coming out of sponsored research projects.
- (iv) Research contribution coming out of major projects of B. Tech. students,

The aim is to be achieved by closely monitoring following academic research activities.

1. Publications.
2. Sponsored R&D projects.
3. Master and Ph.D. degrees.
4. Patents.
5. Individual achievements/awards.
6. Review articles and books in developing areas.
7. Interdisciplinary Research.
8. Data Bases.
9. Benchmarking of academic units with other universities /Institutes.

For the above purpose, the ARC has proposed nine performas (QA-AR 1-9). These will be got filled up by the departments and the data thus obtained will be analysed by the ARC. The methodology for awarding API score has also been suggested in each performa.

### **3.3 Stakeholder Relationship Committee**

A stakeholder is any person, group or organization who can place a claim on an organization's attention, resources or output, or is affected by that output. Effective management of relationship with stakeholders is crucial to resolve issues that organizations face from time to time. By using their influence, stakeholders hold the key to the environment in which the Institute operates and the subsequent financial and operating performance of the Institute. Through proper maintenance of stakeholder relations, the Institute can influence stakeholder attitudes, decisions, and actions for mutual benefit.

The main steps of stakeholder relationship maintenance are: identification of stakeholders and engaging with them. The Institute communicates with the stakeholders in a proactive and efficient manner. The communication is both ways where each get regular status reports; messages etc. and get a forum to air their concerns and grievances while having the comfort of knowing that they will get a response. The aim of stakeholders' relationship sub-committee is to oversee and analyse the feedbacks from various stakeholders of the institute and prepare reports giving recommendation and suggestions.

The aim is achieved in the following ways:

1. Overseeing and analysis the feedback from external stockholders (Employers & Industry, parents, regulators, Govt. and community, Alumni, professional institutions and suppliers) about the Institute and programmes.
2. Overseeing and analysis the feedback of internal members (students, faculty, non-teaching employee and trustees).

The stakeholders have been categorised as internal stakeholders and external stakeholders. The feedback of stakeholders is taken from time to time. The feedback of faculty members, students, non-teaching staff, corporate, parents, alumni and trustees are directly collected through filling of feedback forms. For this purpose, various feedback forms have been developed. The details of the feedback forms are as follows:

**Stakeholder Relationship:**

Sl. No.	Form No.	Title	Evaluation scale	Frequency
1.	QA-SR-1	Faculty feedback form	5 to 1	Yearly
2.	QA-SR-2	Trustee feedback form	Outstanding/Very good/Good/Fair	Yearly
3.	QA-SR-3	Non-teaching feedback form	5 to 1	Yearly
4.	QA-SR-4	Student Satisfaction Survey	Outstanding/Very good/Good/Fair	Yearly
5.	QA-SR-5	Employer feedback form	Outstanding/Very good/Good/Fair	Once in a year (when the company comes for campus placement)
6.	QA-SR-6	Parents feedback form	Outstanding/Very good/Good/Fair	Once in a year (at the time of Convocation)
7.	QA-SR-7	Alumni feedback form	Outstanding/Very good/Good/Fair	Either at the time of Alumni meet or online (at least 2 years after passing out)

The feedback of other stakeholders such as community and government organisations is collected indirectly. The community feedback is indicated by the rating reports of the Institute published by rating agencies (Annexure IV). The feedback of government organisations is reflected in the accreditation and assessment reports and queries of government bodies.

### 3.5 Student activities and placement

In the Institute, education goes well beyond course work, extracurricular activities form a vital part of student experience, creating unique opportunities for friendship, overall development and learning. The student activities complement the studies. There are various hubs under JYC to facilitate students to participate in the extracurricular activities within the University and participate at Regional/National/International level.

Campus placement is a very important activity of the Institute. Many reputed organization/companies visit the Institute every year for recruiting UG/PG students. Campus placement record of the Institute is very good. This subcommittee has the following responsibility.

1. To oversee and analyse data/feedback received from JYC, various hubs and department regarding student's activities.
2. To oversee and analyse data/feedback received from Training and placement Cell, students, employees and parents.
