Steps to join the freshers' orientation program from 03/09/2020 to 08/09/2020 and classes thereafter:

Step 1: Check your primary mail i.e. the mail id which is provided to the Registry at the time of admission/registration on regular basis.

Step 2: You will get a mail having the credentials i.e. login id and password to login to the institutional G suite. Now onwards called as temporary Institutional G Suite id.

Step 3: For the first time, login through the credentials (received in Step 2) to gmail.com.

Step 4: Change the password and remember it or write the new password securely so that you can use it afterward. [If you forget password then it will be difficult for us to retrieve it on time and you may lose many orientation sessions and lectures. So be responsible in saving your password]

[All the communication from the institute will be done to your temporary Institutional G Suite id only, so you are advised to act promptly and use temporary Institutional G Suite id and access your mail box on regular basis]

Step 5: You will get a link to attend the orientation program which is scheduled from 03/09/2020 to 08/09/2020 for undergraduate students and from 03/09/2020 to 07/09/2020 for post graduate students.

Step 6: Join the induction/ orientation program, session and day wise by clicking on the links provided in the orientation schedule for different session on each day. Remember, when prompted to join, use the temporary institutional Gsuite id and password only, Using other gmail ids you will not be able to join and watch the streaming.

You are advised to check your mail box of the temporary Institutional G Suite id on regular basis as you will be getting the invites to join the regular classes from different faculty members when classes start.. Additionally, you will get Google meet link to join the classes which are scheduled according to the time table. As soon as you join, the events are updated on your calendar and on clicking the events you will be able to join the classes.

A document on Student's Quick Guide to Google classroom is also attached for giving you acquaintance with Google Classroom which will be used by all the faculty members to manage their virtual classroom. Use the temporary institutional G Suite id for login always till a new permanent Id is given to you.
