ABOUT THE FACULTY DEVELOPMENT PROGRAM

India's biotechnology industry is in an excellent position for transition into Bio-economy. It is on a strong growth trajectory and has immense growth potential. It will continue to play a significant role in enhancing India's global profile as well as contributing to the growth of the economy.

The Indian biotech industry holds about 2 % share of the global biotech industry. The Government of India has provided adequate scope to this sector by providing facilities for Research and Development (R&D) in the field of biotechnology. India is among the top 12 biotech destinations in the world and ranks third in the Asia-Pacific region, with the second-highest number of USFDA–approved plants, after the USA. The high demand for different biotech products has also opened up scope for understanding the recent developments in various arenas of industrial biotechnology.

The Department of Biotechnology aims to strengthen faculty outlook on "Recent Trends In Industrial Biotechnology", enlightening participants in solving new research questions in industrial biotechnology. Faculty will be well conceptualized and benefited by the series of lectures and interactive sessions to be delivered by subject experts from both Academics and Industry which will help in enhancing the quality of their teaching and giving a new direction to their research interests.

Following key areas will be covered

- Algal Biotechnology
- Therapeutics in Industry
- Microbial Biotechnology
- Sustainable Agriculture
- Food Industry

RESOURCE PERSONS

A set of prominent speakers from Industry and Academia who are involved in latest research in the area of Industrial biotechnology will deliver talks on various topics.
