INTRODUCTION

Genesis

Transforming challenges into opportunities has been the hallmark of the Jaypee Group ever since its inception five decades ago. The Group is a diversified infrastructure conglomerate with business interests in Engineering & Construction, Cement, Power, Real Estate, Expressways, Fertilizer, Hospitality, Healthcare, Sports, Information Technology and Education (not-for-profit).

With the thought of using technology and management effectively, the visionary founder of the Jaiprakash Sewa Sansthan (JSS), Shri Jaiprakash Gaur set up four higher technical institutes to host the best of faculty, students and educational infrastructure to ensure creation, generation, dissemination and application of knowledge to mould the world leaders of tomorrow.

Jaypee Institute of Information Technology (JIIT) was the first amongst four Institutes of higher technical education, raised by the JSS and was established in 2001.

Satisfied with the highest standards of professional education, supporting infrastructure and based on recommendation of AICTE and UGC, the Ministry of Human Resource Development (MHRD), accorded it the status of "Deemed to be University" in 2004.

About Jaiprakash Sewa Sansthan (JSS)

The Group has always believed in "growth with a humane face" and to fulfill its obligations it has set up JSS, a 'not-for-profit' Trust which primarily serves the objectives of socio-economic development, reducing the pain and distress in society.

For over 5 decades now, Jaypee Group has supported the socio-economic development of the local environment in which it operates and ensures that the economically and educationally challenged strata around the work surroundings are also benefited from the Group's growth by providing education, medical and other facilities for local development.

The Group also undertakes Comprehensive Rural Development Programme (CRDP) which covers a wide range of projects such as free medical camps, health check-ups for village school children, literacy campaigns like Balwadis for young boys and girls, safe drinking water supply, creating huge water reservoirs in different villages, self employment which includes tailoring classes for women and animal husbandry. Some other important activities undertaken include the renovation of old temples, other schools and hospital buildings in the adjoining adopted villages.

JSS has translated its social responsibility into reality by building up schools and training institutes that cater to the needs of providing quality education to the rural masses. The trust also helps in times of natural catastrophe to reach the affected communities in distress.

Location

JIIT is situated near the Electronic City Metro Station, Sector-62, Noida, along Delhi Meerut Expressway, at a distance of 4 Kms from New Delhi-U.P. border in the area meant for educational Institutions as provided for by the Noida Authority.

Shri Jaiprakash Gaur
Founder Jaypee Group & First Chancellor of JIIT

VISION

To become a Center of Excellence in the field of IT & related emerging areas in education, training and research comparable to the best in the world for producing professionals who shall be leaders in innovation, entrepreneurship, creativity and management.

MISSION

- To develop as a benchmark University in emerging technologies;
- To provide state- of- the- art teaching, learning process and R&D environment; and
- To harness human capital for sustainable competitive edge and social relevance.

OBJECTIVES

The objectives of the Institute as listed in the Revised Memorandum of Association are:

- To provide for instruction and training in such branches of learning as it may deem fit;
- To provide for research and for the advancement of and dissemination of knowledge;
- To undertake extra mural studies, extension programs and outreach activities that contribute to the development of society; and
- To do all such other acts and things as may be necessary or desirable to further the objects of the Institute.

GOVERNANCE

Board of Management

As per Regulations of the Institute, the responsibility for the general superintendence, direction and control of the affairs of the Institute is vested with the Board of Management. The composition of the Board of Management is as follows:

1. Vice-Chancellor.....Chairperson

Prof. Bodh Raj Mehta

2. Maximum of four nominees of sponsoring Society/Trust/Company

- (i) Sh. Sunil Kumar Sharma
- (ii) Sh. Suren Jain
- (iii) Sh. Alok Gaur

3. One eminent academic nominated by the Central government in consultation with UGC

MHRD Nominee – nomination awaited

4. Deans of Faculties not exceeding two (by rotation, based on seniority)

- (i) Prof. Pammi Gauba, Dean (A&R)-I
- (ii) Prof. Shweta Srivastava, Dean (A&R)-II

5. Three Eminent Academicians as nominated by the Chancellor

- (i) Dr. D.P. Agrawal, Ex-Chairman, UPSC
- (ii) Prof. Gautam Barua, Director IIIT Guwahati & Ex-Director, IIT Guwahati.
- (iii) Dr. Satish Kumar, Ex-Director, NIT Kurukshetra,

6. Two Teachers (from Professors, Associate Professors) by rotation based on seniority

- (i) Prof. Vikas Saxena, HoD-CSE
- (ii) Prof. Alka Tripathi, HoD-Maths

7. The Registrar, Secretary

Col Sharad Rastogi (Retd)

8. Permanent Invitees

- (i) Sh. Jaiprakash Gaur Ji, Founder Chairman and First Chancellor of JIIT
- (ii) Sh. Manoj Gaur Ji, Chancellor
- (iii) Prof. S.C. Saxena, Pro-Chancellor
- (iv) Sh. Anand Bordia, Former member – Finance, NHAI, Secretary WCO, and Secretary, HCI London

9. Special Invitees

- (i) Brig Sanjay Dawar (Retd), Head T&P
- (ii) Sh. S.B. Pant (CFO)

The Board carries out its tasks and functions through statutory committees, which have been specified in the Regulations of the Institute.

Academic Council

The Academic Council is the premier and august body of scholars, which decides and monitors the implementation of Academic policies and profile of the Institute. The powers and functions of the Council are defined in the Regulations of the Institute. Amongst other major functions, the Academic Council controls and approves the courses in various curricula, defines the thrust areas, objectives and constantly reviews the activities of the Departments to ensure improvements in standards.

The Composition of the Academic Council is listed as below:

1. The Vice Chancellor - Chairperson

Prof. Bodh Raj Mehta

2. Director(s) / Dean(s) of Faculties

- (i) Prof D K Rai
- (ii) Prof. Vikas Saxena
- (iii) Prof. Pammi Gauba, Dean (A&R)-I
- (iv) Prof. Shweta Srivastava, Dean (A&R)-II
- (v) Prof. Alka Sharma, Dean (HSS)

3. Heads of the Departments

- (i) Prof. Anirban Pathak
- (ii) Prof. Alka Tripathi

4. Ten Professors other than the Heads of Departments

S. No	Employee Name	Dept	S. No	Employee Name	Dept
i	Prof. Neeraj Wadhwa	Biotech	vii	Prof. R.K. Misra	JBS
ii	Prof. S. Krishna Sundari	Biotech	viii	Prof. A.K. Aggarwal	Maths
iii	Prof. Krishna Asawa	CSE/IT	ix	Prof. B.P. Chamola	Maths
iv	Prof. Sandeep Kr Singh	CSE/IT	x	Prof. S.P. Purohit	PMSE
v	Prof. Sajaivir Singh	ECE	xi	Prof. R.K Dwivedi	PMSE
vi	Prof. Jitendra Mohan	ECE	xii	Prof. Mukta Mani	HSS

5. Two Associate Professors from the Departments other than the Heads of the Departments by rotation of seniority

- (i) Dr. Vijay Khare
- (ii) Dr. Neetu Sardana

6. Two Assistant Professors from the Departments by rotation of seniority

- (i) Dr. Yogesh Gupta
- (ii) Dr. Prashant Kumar Chauhan

- 7. Three persons from amongst educationists of repute or persons from any other field related to the activities of the Institution deemed to be University who are not in the service of the Institution deemed to be University, nominated by the Vice-Chancellor**
 - (i) Prof. Manoj Mishra, IIT Roorkee.
 - (ii) Shri Subhash Verma, Managing Director & Vice President Engineering
 - (iii) Prof. Brahmjeet Singh, NIT, Kurukshetra
 - (iv) Dr. Arup Kumar Das, Ericsson India Global
 - (v) Shri Ranjit Sinha, Independent Industry Expert
- 8. Three persons who are not members of the teaching staff, co-opted by the Academic Council for their specialized knowledge**
 - (i) Brig Sanjay Dawar (Retd) – Head Placements & Dean Students Welfare
 - (ii) Shri SB Pant - CFO
- 9. The Registrar, who shall be the Secretary of the Academic Council (Ex-officio)**

Col Sharad Rastogi (Retd)
- 10. Permanent Invitee**

Prof. S.C. Saxena, Pro- Chancellor
- 11. Special Invitee**

Mr. Mihir Kumar Jha

Planning and Monitoring Board

- 1. The Vice Chancellor - Chairperson**

Prof. Bodh Raj Mehta
- 2. One Nominee of UGC**

Prof. K.P. Singh (Letter ref No 1-2/2016(CPP-I/DU, dated 8th February, 2019)
Professor – Emeritus
Department of Electronics Engineering
Institute of Technology
Banaras Hindu University
Varanasi-221005
- 3. Eight Internal members**
 - (i) Prof. D K Rai
 - (ii) Prof. Vikas Saxena
 - (iii) Prof. Alka Sharma
 - (iv) Prof. Pammi Gauba
 - (v) Prof. Shweta Srivastava
 - (vi) Prof. S P Purohit

(vii) Prof. Amrish Kumar Agarwal

(viii) Brig Sanjay Dawar (Retd)

4. Three Outside Experts

(i) Prof. R.K. Sharma, VC, JIIT, Waknaghat

(ii) Prof. J.S.P. Rai, VC, JUET, Guna

(iii) Prof. P K Jain, IIT (BHU), Varanasi

5. Permanent Invitee

Prof. S.C. Saxena, Pro- Chancellor

6. Registrar.....Secretary

Col Sharad Rastogi (Retd)

7. Special Invitees

(i) Sh. S.B. Pant

(ii) Sh. S. Moondra

(iii) Sh. Mihir Kumar Jha

Finance Committee

1. Vice Chancellor.....Chairperson

Prof. Bodh Raj Mehta

2. A person nominated by the Society/Trust/Company

Sh. S. D. Nailwal

Ex-Director, Finance, Jaiprakash Associates Limited, Sector-128

3. Two nominees of the Board of Management, one of whom shall be member of the Board

Sh. Sunil Kumar Sharma

Executive Vice Chairman, Jaypee Group of Companies

Prof. Pammi Gauba

Dean (A&R)-1

4. A representative of the Central Government

.....Nomination awaited

5. Permanent Invitee

Prof. S.C. Saxena, Pro- Chancellor

6. Finance Officer.....Secretary

Sh. S.B. Pant

INFRASTRUCTURE DETAILS

JIIT has been developed as modern world Class University having campuses at Sector-62 and Sector-128, with intellectually vibrant ambience in a serene and lush green environment. The state-of-the-art campuses comprise smart buildings with Internet, with Wi-Fi connectivity, including environmentally conditioned Academic Blocks, Annapurna (Mess), well-equipped modern laboratories and Learning Resource Centres. Student residence provides a pleasant and intellectually stimulating ambience for the students in an eco-friendly environment. The details of the Infrastructure and available facilities are attached in **Appendix-A**.

ACADEMIC PROFILE

The Academic Philosophy

Teaching

- Student centric learning;
- Encouragement to self learning;
- Periodic Review of Curricula to keep pace with changing technology;
- Regular updating of Electives in the Curricula;
- Emphasis on project, design and Laboratory skills;
- Emphasis on creativity & innovation skills;
- Development of Communication Skills and Leadership quality;
- Emphasis on fundamentals, concept understanding and analytical & problem solving skills;
- Enhancement of scientific reasoning ability;
- Integration of human values and professionalism.

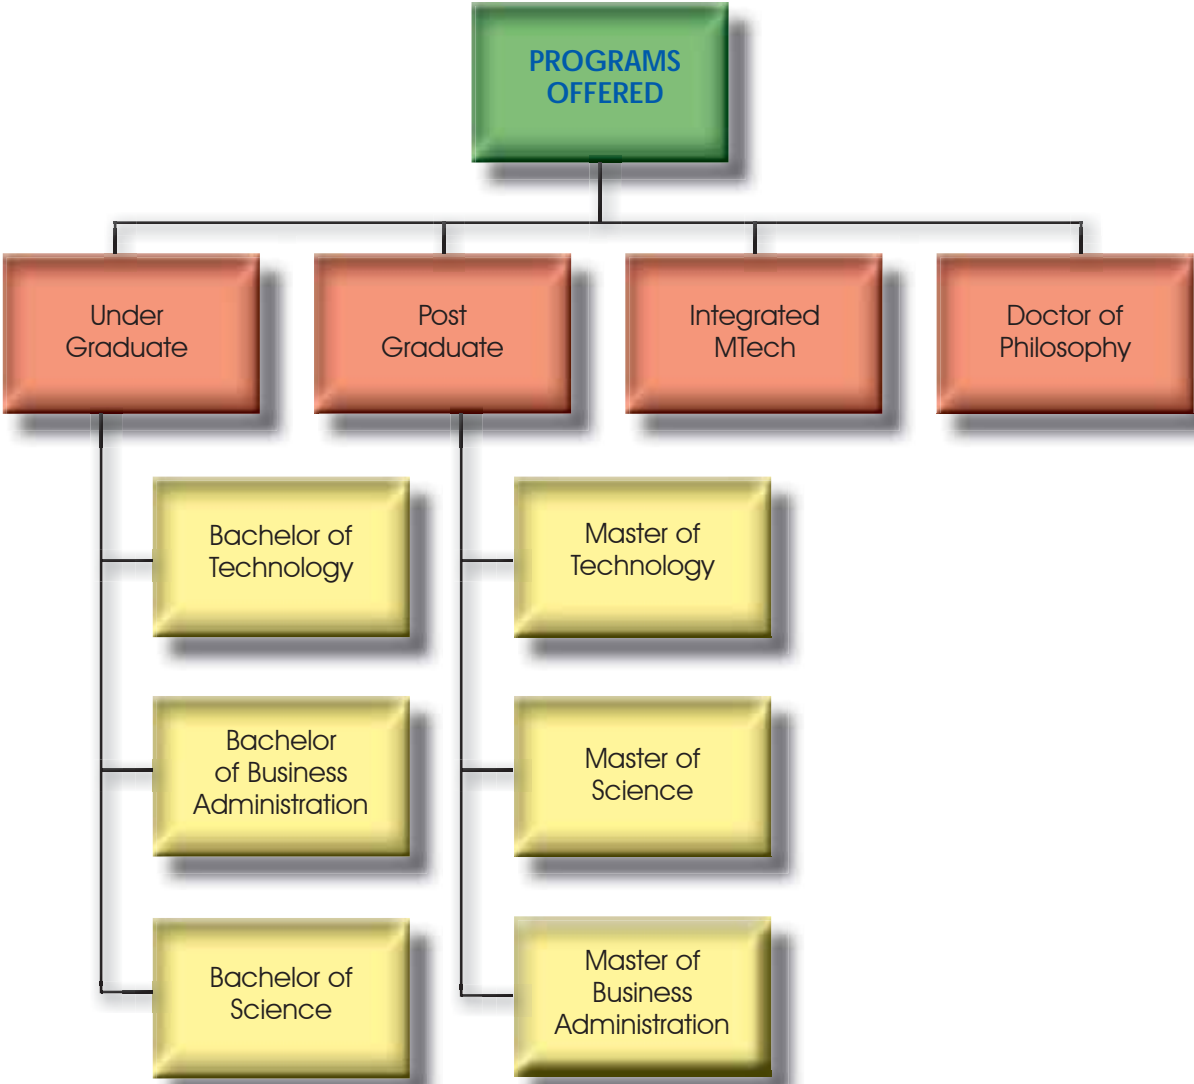

Research

- Research from undergraduate level;
- Faculty promotions based on R&D output;
- Emphasis on individual as well as group research;
- Undertaking project work in collaboration with the Industry.

Education System

- At JIIT, special emphasis has been placed on developing an environment highly conducive to building of a solid foundation of knowledge, personality development, confidence building, pursuit of excellence, self-discipline and enhancement of creativity through motivation and drive, which helps to produce professionals who are well trained for the rigors of professional and social life. Students are encouraged to make life outside the classroom vibrant and enjoyable by engaging themselves in multiple extracurricular areas. Creativity, competition, distinction, establishing relationships with fellow students and others in the community and ultimately enhancing the value of their educational experience, is at the heart of all extracurricular activities.
- The academic year consists of two semesters (Odd Semester from July to December and Even Semester from January to June) for all academic programs. The education system is organized around credit system which ensures continuous evaluation of student's performance and provides flexibility to choose courses of interest and to progress at an optimum pace suited to student's ability or convenience. Each course is assigned certain number of credits depending upon the class contact hours. A specified number of credits and CGPA are to be completed satisfactorily in order to qualify for a degree. The medium of instruction is English.

INFRASTRUCTURE DETAILS

Under Graduate Programs

The UG programs of study emphasize strong conceptual understanding and practical skills in their respective areas of specialization. All students are provided with a sound foundation in the basic sciences (Maths and Physics), coupled with courses in Humanities and Social Sciences.

The academic system lays great emphasis on continuous evaluation and transparency. By means of well designed tutorials and practicals, every effort is made to reinforce the concepts taught in the classroom. In the final year, major projects are assigned to students.

Industry internship after the 6th semester is an integral part of the academic program leading to the overall development of a student through exposure to practical skills in real life situations.

Education Methodology comprises multiple learning stages, specifically lectures, self-study, tutorials, lab work, assignments, projects, research, internships, guest lectures, seminars, continuous evaluation, examinations and personality development programs.

JIT offers the following Under Graduate Programs:

- 4 Years Bachelor of Technology (BTech)
- 3 Years Bachelor of Business Administration (BBA)
- 3 Years Bachelor of Science (BSc)

Bachelor of Technology (BTech) Programs – Four Years

(i) B.Tech (Biotechnology)

The undergraduate B. Tech in Biotechnology program offers students - A cross-disciplinary knowledge in the field of biotechnology and engineering along with the soft-skills required for industry, education, research, and/or management. Students are provided research-oriented training through in-house minor and major projects and mandatory industrial internship enabling them to pursue higher studies and/or enter the biotechnology industry workforce. The curriculum has strengthened over the years through the efforts of Board of Studies and Academic Council comprising experts from premier academic institutes. Core subjects having theory as well as laboratory imparting hands-on training are supported by specialized electives in fields of Industrial Biotechnology, Medical Biotechnology, Plant And Microbial Biotechnology, Bioinformatics. To empower students to choose subjects for successful professional careers.

(ii) B. Tech (Computer Science & Engineering)

The UG curriculum of CSE, standing on elements of research and design, is updated on regular basis to include areas of current relevance in the field of Computer Science & IT. Currently, compelling areas like Data Analytics, Cloud, Fog and Edge Computing, Big Data Technologies, Cyber Security, Internet of Things, Artificial Intelligence and Machine Learning, Block chain and latest development in software processes like DevOps and Kubernetes, are part of one or more subjects in the curricula. Large number of electives offers to a student to choose subjects according to their interests and future plans. Core and choice based interdisciplinary electives in almost every semester provide avenues to understand the way computer science can benefit from other disciplines and vice-versa. Besides regular credit based subjects, students can earn a certificate of

proficiency through value added courses and electives, workshops for reinforced learning in the areas of importance. Teaching pedagogy lays heavy emphasis on programming skills nurtured through contemporarily designed laboratory courses and minor major projects. Learning in practical subjects is facilitated by well equipped laboratories while being continuously supported by faculty members, Ph.D. and M.Tech.(Teaching Associates) as well as fourth year B.Tech students as mentors. Department has strong programming culture, and thus students are not performing at only national level, but at international level also at various world class programming platforms like code chef, GSoC internships and many more. Department regularly organizes co-curricular technical activities like online programming competitions, hackathons, Robotics hub, Google Developer Group workshops and graphic designing workshops etc. This gives CSE students an edge over other undergraduates and postgraduates. IT Giants like Amazon, Adobe, Google, D.E. Shaw, Morgan Stanley, Deloitte, SAP & many others are regular recruiters. It's worth mentioning here that the number of companies offering package more than INR 10 Lac per annum (LPA) are increasing every years. On an average, approximately 130 companies visit JIT to recruit IT professionals every year. Apart from strong industry driven curricula, department has strong research environment also. CSE UG students can earn a Minor degree in other discipline if they take 20 credits in addition to their regular CSE & IT credits. There is also a provision of earning a Proficiency Certificate. It helps students to become more employable in the industry.

(iii) B. Tech (Information Technology)

The curriculum of B.Tech (IT) is updated regularly as per the requirement of industry and research. Various areas like Artificial Intelligence, Data Science, Cyber Security, Internet of Things, Block chain and latest development in software processes like DevOps and Kubernetes are all part of curricula. There are large number of electives in third year and fourth year of B.Tech(IT) program. Teaching pedagogy lays heavy emphasis on programming skills nurtured through contemporarily designed laboratory courses and minor and major projects. Learning in practical subjects is facilitated by well equipped laboratories while being continuously supported by faculty members, Ph.D. and M.Tech.(Teaching Associates) as well as fourth year B.Tech students as mentors.

Through extracurricular technical activities including online programming contests, hackathons, robotics hub, Google Developer Group seminars, and graphic design interest groups, students are given plenty of chances to practice and showcase their creativity and creative talents. As a result of all these exposures, student projects quite often lead to research publications in leading journals and conferences. Some of the core subjects of the programs include Object Oriented Programming, Computer Organization and Architecture, Smart Systems, Micro Processors & Controllers, Algorithms, Operating Systems, Software Engineering, Computation Theory, Computer Networks and Compiler Design. Students have to undergo a thorough six-week mandatory industrial training at the end of their third year of study to get a feel of the work culture in relevant industries. It's the result of all these concerted efforts that the placement statistics are very enthusiastic and eligible students get job offers through campus placement. Number of student intake 60.

(iv) B.Tech (Electronics & Communication Engineering)

The B Tech ECE programme provides students a strong foundation in the fundamentals of Electronics and Communications Engineering through courses such as Analog & Digital Communications, Digital Logic & Circuits, Coding & Information Theory, etc. The programme provides mastery over advanced topics in Embedded Systems, Wireless Broadband Communications and Digital Signal Processing to enable students to straddle the overlapping fields of Electronics, Communications and Computer Science.

Bachelor of Business Administration (BBA) Program – Three Years

The 3-year full-time BBA program boasts an innovative and adaptable curriculum that combines various disciplines of study in a creative manner. It employs inventive and engaging teaching methods to enhance the students' learning journey. Furthermore, the curriculum integrates Digital Transformation technology to equip students with skills relevant to emerging areas of management. The primary objective of the BBA program is to foster a wide range of competencies in students, cultivate an understanding of societal and human contexts, and instil strong ethical values.

This 3-year undergraduate BBA program's curriculum offers specialization options in Finance, Marketing, HR, Information Technology, Family Business & Entrepreneurship, Healthcare Management, and Business Analytics. The curriculum is divided into six semesters, each lasting sixteen weeks, encompassing both teaching and evaluation components. In the final two semesters of the program, students have the opportunity to choose discipline-specific electives for specialization.

B. Sc - Computer Science

The B.Sc / B.Sc. (Honours/ Honours with Research) in Computer Science programme is designed to develop analytical, computational thinking and problem-solving skills in design, development and implementation of computer software/hardware. It covers the foundation and core courses of computer science and mathematics. Projects, summer training and internship will develop the communication, problem solving, team work and leadership skills to meet the requirement of the industries/organizations. After successful completion of the programme, students will be capable of starting a career as an entrepreneur or may join various Software Industries as Software Professional, Data Scientist, System Analyst, Network Administrator etc. This programme also provides excellent opportunities for higher studies in the area of computer science/applications.

Integrated M.Tech Programs

(i) 5 Year Integrated Program M. Tech (Biotechnology)

The department also offers a rigorous five-year dual degree program where students in the dual degree program undertake additional specialized core and electives such as Biomolecules and Cell Communication, Nanobiotechnology, Phytotherapeutics and Pharmacology, Regulatory Affairs, Drug Delivery, Genomics & Society, Biostatistics, Product Development in Biotechnology, etc leading to the simultaneous award of B.Tech and M.Tech degrees in Biotechnology. The final semester entails industrial project/in-house Dissertation where students are encouraged and provided opportunities to work on research projects. They are awarded special contribution marks if they publish in journals of International and National repute or participate in conferences/seminar etc. Since these students

carry out 2 research projects in their curriculum duration, they are poised better with respect to placements in industry, research, or higher education.

(ii) 5 Year Integrated Program M. Tech (Computer Science and Engineering)

The five year integrated M.Tech. program is designed for those students who are deeply fascinated by Computer Science & Engineering and are keen on specializing in this discipline. Through six months full time dissertation, students are groomed to start an R&D oriented career in IT industry or pursue their doctoral studies in Computer Science & Engineering. The curriculum offers foundation as well as advanced courses on a wide spectrum of computing areas-Programming, Algorithms, Databases, Computer Organization and Architecture, Operating Systems, Computer Networks, Web and Mobile Computing, Embedded Systems, Distributed Systems, Artificial Intelligence, Machine Learning, Software Engineering, Information and Networks Security, Multimedia Computing, Performance Modeling etc. The job opportunities and placement statistics of Integrated CSE program is equivalent to B.Tech. CSE & IT students. Moreover since these students have been exposed to the research based PG Curriculum, Integrated students are doing much better in the industry as well as in research. Number of student intake 30.

(iii) 5 Year Integrated Program M. Tech (Electronics and Communication Engineering)

The integrated M.Tech program in Electronics and Communication Engineering is a specially designed program which includes courses of both B.Tech and M.Tech degrees in the discipline of Electronics and Communication Engineering and emphasizes on an in-depth understanding of several advanced and state-of-the-art courses in the area of Signal & Speech Processing and Coding, Wireless Communication, VLSI, System on Chip, Satellite Communication, Machine Learning, Microwave Engineering etc.

Post Graduate Programs

JIT offers following Post Graduate Programs:

- 2 Years Master of Technology (MTech)
- 2 Years Master of Science (MSc)
- 2 Years Master of Business Administration (MBA)

Master of Technology (MTech) Programs – Two Years

(i) M. Tech - Biotechnology

The objective of the M. Tech in Biotechnology program is to equip students with knowledge and skill sets to carry out research and innovation in biotechnology field to address societal needs. An in-depth theoretical and practical understanding of fundamental topics such Biomolecules and Cell Communication, Bioprocess and Industrial Biotechnology, Diseases and Healthcare, Molecular Modelling, & Drug Design and Research Methodology and Intellectual Property Rights is provided by M.Tech. biotechnology. Students can choose electives that will help them achieve their future goals or interests in research. Students have a variety of elective options covering interdisciplinary fields to choose from, including Functional and Evolutionary Genomics, Proteomics, Drug Target Discovery, Nutraceuticals, Microbial Biodiversity/Bioremediation, Bioprocess Technology, Nano-Biotechnology,

Biosensors, and Product Development in Biotechnology, taught by experienced faculty with diverse research backgrounds. Hands-on research exposure through strategically planned laboratory experiments, Project Based Learning, Seminar, and Term Paper components, year-long research project(s), and industrial trainings makes them industry ready professionals.

(ii) M.Tech - Electronics and Communication Engineering

The Master of Technology in Electronics and Communications Engineering is a two-year curriculum for engineering students that is offered with three different specializations:

- **M.Tech (ECE with specialization in Wireless Communication)**

This specialization offers in-depth theoretical and practical knowledge of advanced communication systems (4G, 5G, and beyond). The curriculum and courses of the specialization are designed meticulously, keeping in mind the demands of the wireless and mobile industries.

- **M.Tech (ECE with specialization in Micro Electronic Systems and Internet of Things)**

This specialization is designed to provide electronics engineers with the highly specialized knowledge and experience that they need to design, fabricate, and test devices, circuits, and systems at the micro scale.

- **M.Tech (ECE with specialization in Machine Learning and Signal Processing)**

This specialization is aimed at providing a deeper understanding of the mathematical, theoretical, practical, and application aspects of machine learning and signal processing and creating professionals who are industry-ready.

(iii) M. Tech - Computer Science & Engineering

- M.Tech Computer Science and Engineering
- M.Tech (CSE with Specialization in Data Analytics)
- M. Tech (CSE with Specialization in Information Technology and Entrepreneurship)
- M.Tech (CSE with Specialization in Artificial Intelligence and Machine learning)
- M.Tech (CSE with specialization in Internet of Things)

The objective of the program is to impart advanced level knowledge in specialized field making the students fit for academia as well as industry and assume responsibilities requiring further research, design and development aptitude. Through compulsory core and open elective subjects, the students acquire a state-of-the-art advanced knowledge in a chosen field of specialization. These selective courses give the opportunity to further specialize in the field depending on his/her interest and the future career plan. For project work and dissertation students are required to take-up problems on a particular topic in the field culminating in submission of a dissertation report. M.Tech (CSE) also offers specialization in Artificial Intelligence and Machine Learning, Data Analytics, IT & Entrepreneurship and Internet of Things. There are 30 student intake in each stream i.e. total 150 students in M.Tech program.

Master of Science (MSc) Programs – Two Years

(i) M.Sc (Microbiology)

The M.Sc. Microbiology program has been meticulously designed to prepare professionals in the fields of basic and applied microbiology. The curriculum provides in-depth understanding of broad range of courses in microbiology such as Microbial Physiology and Diversity, Microbial Genetics and Molecular Biology, Biostatistics and Applications, Environmental Microbiology, Immunology and Immunotechnology, Medical Microbiology, Enzymes and Bioprocess Technology, Food & Dairy Microbiology and Bioinformatics and Omics for professional development of a microbiologist. Furthermore, students have the option to take electives such as Regulatory affairs, Biosensors, Product development in Biotechnology, Diagnostic Microbiology, IPR in Biotechnology, Microbial Technology, Bio-separation Technology, Nanobiotechnology and Probiotics & Prebiotics, that align with their research interest. Additionally, the curriculum's labs, dissertations, and project work prepare post-graduates for a variety of careers in hospitals, diagnostics, pharmaceutical and biopharma R&D, clinical laboratories, the food industry, food safety, and quality control, in addition to the core biotechnology industries.

(ii) M.Sc (Economics)

The Department of Humanities and Social Sciences, Jaypee Institute of Information Technology Noida offers Master of Science in Economics a two-year full-time program. The program is designed with an aim to provide the students theoretical, analytical and quantitative skills for demanding careers in the field of economics. It also provides a strong foundation in the contemporary economic theories, methods of econometric analysis, mathematics and computer programming that will help them to analyse and forecast various processes associated with economics. It also provides an edge for students who are aiming to make a career in the Analytics and Credit Scoring sector most notably in Banking, Insurance, scientific research and auditing & consulting firms.

(iii) M.Sc (Environmental Biotechnology)

The Department of Biotechnology recently introduced M. Sc. in Environmental Biotechnology, in AY 2020-21. The program primarily focuses on the application of biotechnology-based processes for providing technology sound solutions to address environmental issues. The two-year master's programs include both basic and applied courses relevant to environment biotechnology; Environmental Chemistry, Environmental Pollution, Assessment & Monitoring, Environmental Microbiology, Environmental Toxicology, Waste Management, Environmental Policy, Ethics & Legislation and Recombinant DNA Technology. An optimum blend of theory and laboratory courses along with dissertation/hands-on project work prepares students for a career in industry, academia and entrepreneurship.

(iv) M.Sc (Mathematics)

The M.Sc. program in Mathematics is carefully designed to convey essential knowledge in Mathematics and to provide substantial opportunities for pursuing excellence in all major areas of pure and applied mathematics. The objective of this program is to develop mathematical attitude in students, nurture their interests

towards mathematics and motivate them for research in mathematical sciences. After the completion of the course, the students would be well equipped to go to industries or to join academics.

(v) M.Sc (Physics)

A two year M.Sc program in Physics is offered by the department of Physics and Materials Science and Engineering (PMSE). The course curriculum of this program is designed with an objective to provide understanding and skills in Physics suitable for a professional career in academics, R&D and doctoral studies in sub-domains of experimental and theoretical Physics/Applied Physics.

The curriculum of this four-semester program follows choice-based credit system (CBCS) with the option of advanced study and training in two specializations: Condensed Matter Physics and Applied Optics. The first three semesters cover the fundamentals of the subject. During the fourth semester, students undertake project/dissertation work. The department has well equipped curricular and research laboratories with modern and state of the art equipment. In addition, regularly organized seminars, expert talks, and opportunity to interact with a large number of Ph.D students and Post-Doctoral fellows bestow a dynamic ambience and an excellent learning environment

Master of Business Administration (MBA) Program – Two Years

The two-year full time MBA programme is the flagship programme of the business school. It aims to prepare students for effective management, leadership, organization, and adaptability within the ever-changing business landscape. This program provides students with a blend of practical skills and theoretical knowledge.

The curriculum follows a semester system, spanning four semesters over two years. In the initial year, students are exposed to foundational management courses, mandatory courses in emerging management areas, and information technology. During the second year, students have the flexibility to choose elective courses from both major and minor areas of specialization, in addition to a selection of core courses with an integrative focus. Alongside these academic components, students are also required to fulfil social and corporate internship requirements.

Doctoral Programs (PhD)

The award of the PhD degree by the Institute is in recognition of high academic achievements demonstrated by independent research and application of knowledge to the solution of technical and scientific problems. Creative and productive inquiry is the basic requirement underlying research work. PhD scholars may also be required to take part in some advanced level course work. The scholars are required to take up intensive research work under the guidance of a supervisor on a specific problem for a minimum of two to three years in this program. The research work is expected to result in new findings contributing to the knowledge advancement in the chosen field. The doctoral research program of JIT gives an opportunity to students to demonstrate their analytical, innovative and independent thinking leading to creativity and application of knowledge. The scholars are required to deliver seminars on their research progress regularly and publish their work. Finally, they are required to submit the thesis embodying their research findings for the awarding of the Ph.D. degree.

(i) **Biotechnology**

The Department of Biotechnology offers excellent opportunities for research in basic and applied sciences. Admission to PhD programme is through entrance examination followed by an interview. Biotechnology department has three centers of excellence: Plant and Molecular Biology Group, Centre for Emerging Diseases and Centre of Technology Solutions for Soil & Water Remediation. Faculty members with diverse research background are working in research areas such as Drug Discovery, Microbial Biotechnology, Natural Products Research, Plant and Molecular Biology, Bioinformatics, Systems Biology, Genetics and Genomics, Cardiovascular diseases, Viral Host Interactions, Structural biology, Nanobiotechnology, Biosensors, Novel Drug Delivery Systems, Bioprocess engineering, Food Biotechnology, bio/phytoremediation and medical diagnostics. JIIT provides financial assistance in terms of teaching assistantship (TA) to Ph.D scholars for a period of three years. Additionally, students are encouraged to apply for government fellowships such as INSPIRE, DST-WOS, DBTBIOCARE, etc. Furthermore, biotechnology department faculty members have extramurally funded projects from several funding agencies (DBT, DST, ICMR, AICTE, DRDO, MoEF and AYUSH). These projects provide a platform for national and international collaborations/exposure to Ph.D scholars to undertake cutting edge research and financial support in terms of JRF/SRF fellowships.

(ii) **Computer Science and Engineering**

The Ph.D. programme offers research training in diversified areas of intelligent systems, machine learning, information retrieval, data mining, computer networks, distributed systems, wireless networks, information security, software engineering, information systems, multimedia computing, HCI, computer architecture, embedded systems, computing education, IoT, etc. From 2009 to 2022, total 72 Ph.D. have been awarded.

Department has total 47 labs, which are equipped with state of the art computing facility and infrastructure requirement.

(iii) **Electronics & Communication Engineering**

The Ph.D. program is available with specialization in Electronics and Communication Engineering, and in key areas of current technological importance. The students completing these courses will get the career opportunities in various sectors, from telecommunications and IT infrastructure to health care, education, and manufacturing.

(iv) **Humanities & Social Sciences**

The Department also offers Ph.D. programme in Economics, English, Psychology, Sociology, and other disciplines with an emphasis on inter-disciplinary topics. The Ph. D admissions are done twice every year. The students are required to do course work in their respective subjects. For the fulfilment of its teaching and research goals, the Department has competent faculty members with a high degree of excellence who keep pace with the current developments in their fields of specialization.

(v) Mathematics

The Department offers doctoral research program in the thrust areas of Fractals and Chaos, Mathematical Analysis; Numerical Analysis and Computational Continuum Mechanics; Statistics, Fuzzy Theory, Information Theory and Operations Research. The Department is involved in these emerging areas of Mathematics which are a good blend of pure and applied mathematics of contemporary importance.

(vi) Physics and Materials Science & Engineering

The Department also has Ph.D program in research areas of Advanced Materials, Nanoscience and Nanomaterials, Quantum Optics & Computing, Atomic & Molecular Physics, Energy Materials and Devices, Photonics and Plasma Physics, Semiconductors. Until now, the Department has produced 33 Ph.D. and 30 students are currently pursuing their Ph.D. in various fields of research. In addition, faculty members of the department mentor post-doctoral fellows. Presence of post-doctoral fellows and a good number of externally funded projects enhance the academic ambience of the Department.

Research Facilities: A state of the art Quantum Cryptography lab, Materials Synthesis Facilities (e.g., Thin Films, Nano & Bulk) and Materials Characterization Facilities which includes

- X-ray Diffraction (XRD)
- Infrared Spectroscopy
- UV-Visible Spectroscopy
- Photoluminescence Spectroscopy (PL)
- Differential Scanning Calorimetry
- Dielectric Measurement
- RT Measurement
- Battery Testing Facility
- Thermoelectric Measurement

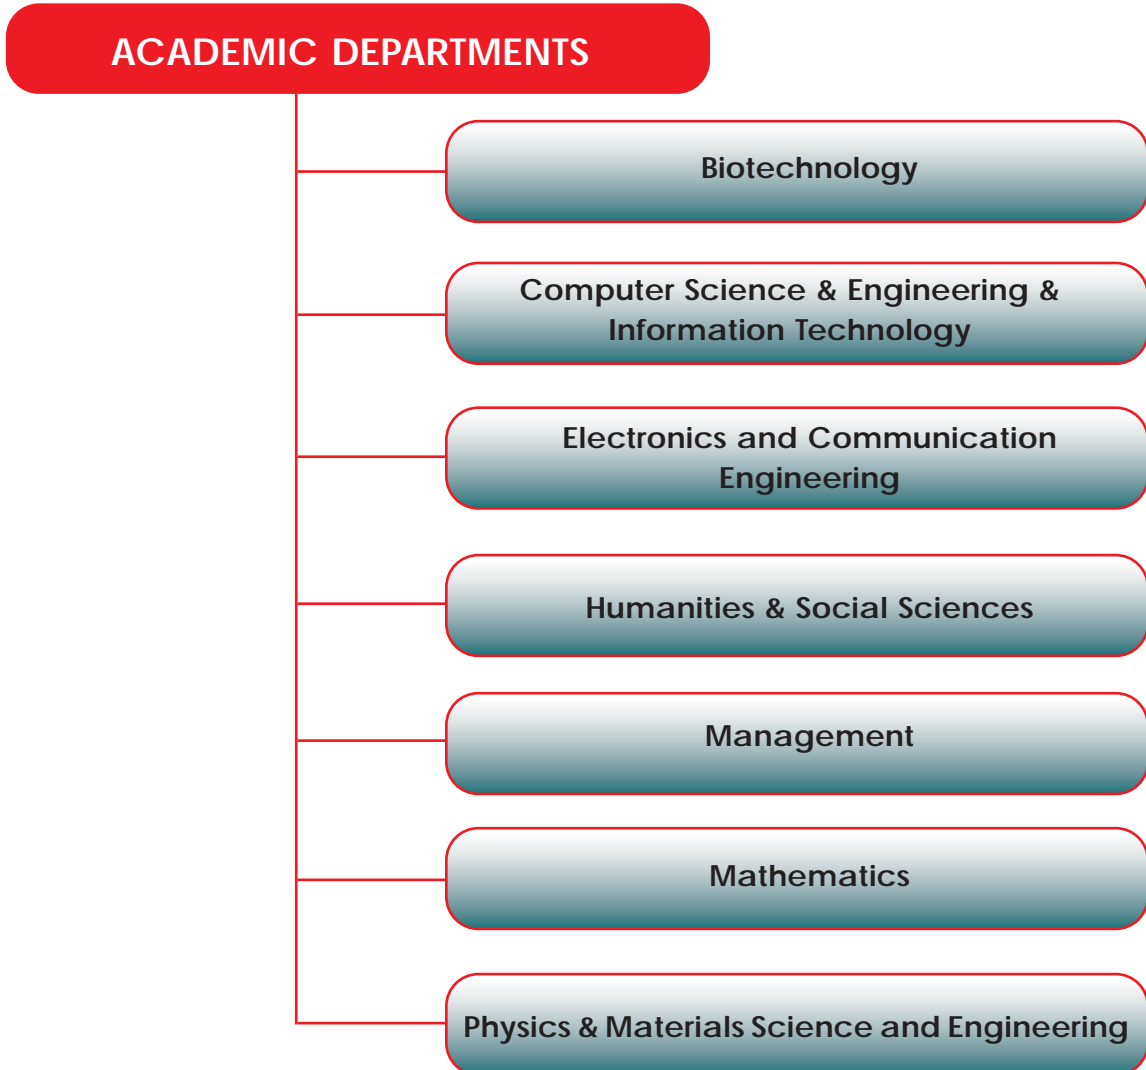

(vii) Management

JBS provides Ph.D. programs covering all functional areas of management. Admission to the program can be achieved by qualifying in exams such as NET, SLET, UGC, CSIR (JRF), or through the university's admission test. While a preference is given to full-time candidates, a limited number of part-time students may also be admitted. Full-time scholars receive a Research Assistantship.

The PhD program is demanding, requiring scholars to complete specified coursework and present their progress every six months. Scholars must engage in intensive research work under their supervisor's guidance on a specific topic for a minimum duration as outlined in the Ph.D. Program Ordinance.

ACADEMIC DEPARTMENTS

All teaching & research programs at the University are carried out through the academic departments.

Department of Biotechnology

Established in 2002, Jaypee Institute of Information Technology's Department of Biotechnology stands firm to its objective of providing teaching and learning that is unequivocally backed by research, crafting a vibrant R & D environment. The

department homes erudite faculty members with their doctoral and post-doctoral studies, from both reputed Indian and foreign institutions. Multiple domestic and coordinated efforts in the scholarly community and industry reinforce and strengthen the core of the various programs (B.Tech, Dual degree, Masters, Doctoral) offered by our department.

The department of Biotechnology at Jaypee Institute of Information Technology is a dedicated center for academic and research activities in the diverse field of biological science with major focus on Industrial Biotechnology, Bioprocess Technology, Medical Biotechnology, Plant Biotechnology, Microbial Biotechnology, Environmental Biotechnology, Bioinformatics and Food Biotechnology. The department boasts of well-qualified and experienced faculty members, who impart quality teaching and training to the students. The department offers B.Tech (Biotechnology), M.Tech Biotechnology, Dual Degree B.Tech Biotechnology-M.Tech (Biotechnology), MSc. Microbiology and MSc Environmental Biotechnology as well as PhD programs in diverse fields of biotechnology.

In the current scenario, various sectors such as, healthcare, agriculture and environment have witnessed the potential of biotechnology in achieving advancements. Considering this, our course curriculum is designed to equip students with innovative skills that enable an easy transition to academia, research and industry. The curriculum integrates core subject knowledge with and engineering interface to foster entrepreneurship, improve professional development and develop research and analytical skills in students. The strong research platform of the department is evident from the number of extramural research funds received by various faculty members, who are working in - "Centre for Emerging Diseases" (extramural funding approximately 938.047 lakhs) and Centre of Excellence in Plant & Microbial Biotechnology (extramural research funds of Rs. 487.8 lakhs). In addition to research papers, books and book chapters, the department has

successfully received four patents in the field of drug delivery and nanobiotechnology with one successful technology transfer in the field of biosensors.

Department regularly plans national and international conferences as well as seminars that highlight the most recent advancements in the field of biotechnology research. These platforms provide both students and faculty members an opportunity to interact with other research communities and industry people, which motivates research collaboration and attracts angel investors. The faculty members of the department are actively coordinating various co-curricular hubs such as Ribose, Ecoquence, Adwitya, Crescendo, Expressions, Jhankaar, and the Page Turner Society, which propagates a holistic development in the students.

The graduates of the department successfully secure positions in various distinguished national and international institutions for pre-doctoral and doctoral degrees. National and International prestigious universities like the University of Leeds (UK), University of Illinois (USA), Max Planck Institutes (Germany), Johns Hopkins University (USA), Georgia Tech (USA), Texas A&M University (USA), Keck Graduate Institute (USA), University of Manchester (UK), Pennsylvania State University (USA), Melbourne University (Australia), IIT, IIM, BHU, and JNU are among the distinguished institutions with which we have alumni connections.

With the declaration of "Innovation Decade" by the constitution of the institution, the department aimed to motivate entrepreneurship in students for economic development of the country. The research work of the department strongly abides by code of ethics defined at the institutional level. The department has an IBSC (Institutional Biosafety Committee) committee designed as per the guidelines of the Department of Biotechnology (DBT), Gov of India, which regularly organized meetings to monitor the compliance of bio-safety levels in various ongoing research projects. Further, Institutional Ethical Committee (IEC) has been designed as per ICMR guidelines, that ensures the compliance of code of ethics in research work involving animals/human subjects

➤ **Laboratory Facilities**

The department of biotechnology has well-established lab facilities with state-of-the-art lab equipment that strongly supports the innovative research in diverse area of biotechnology. The department host dedicated core facilities with top-notch equipment and curricula like Functional Genomics lab, Plant and Animal Cell culture labs, Biochemistry lab, and eight specialized research laboratories under the Center for Emerging Diseases, Transcriptome Lab, Novel Drug Delivery Systems Lab, and Nano-Biotechnology Lab to conduct research in priority areas of biotechnology with an emphasis on applied research. Our research laboratories have recently expanded to 3000 square feet, with designated M. Tech and Computational Laboratories. The department has some major high-end instruments such as Differential Scanning Calorimeter (DSC), Microwave plasma-atomic emission spectrometer (MP-AES), Atomic Absorption Spectrophotometer, HPLC system, AKTA- FPLC and Fourier transform infrared (FTIR), RT-PCR and GC (Gas Chromatography). Additionally, separate well-established labs for animal tissue culture, plant tissue culture and environment biotechnology are available in the department. The department has devoted faculty members working on the industrially, agriculturally, and medicinally significant plants and microbes using recombinant DNA technology, genomics, transcriptomics and bioinformatics techniques. The department is outfitted with cutting edge equipment

and state-of-the-art laboratory facilities. Additionally, there is a strong focus on the synthesis, use, and toxicity research of nanomaterials as well as the development of nanobiosensors. The department also received financial support under FIST from Department of Science and Technology, Ministry of Science & Technology, Govt. of India. A portion of the budget is set aside for equipment upgrades in order to maintain state-of-the-art labs and research facilities. Our department successfully established a new, specialized lab on bioremediation during the previous academic year. The Department of AYUSH and the Ministry of Environment, Government of India, provided an extramural funding to support the lab, which is furnished with a number of entry-level and high-end instruments, including the Microwave Assisted Digestion System (Nutechanalytical Technologies Pvt. Ltd.).

Important additions made in Labs

S. No.	Lab	Instruments
1	Env. Lab	HPLC (dell PC)
2	BCL	Freezer (-20°C) chest
3	ATC	Microscope inverted with DC-16 camera
4	Env . Lab	Plant Growth Environmental chamber (PGC)
5	Instrumentation Lab	Fluoroskan microplate instrument
6	BCL	Microwave 30LTR LG MODEL NO-MJEN326TL (FOC)
7	Washing Area	Vacuum rotary evaporator automatic model
8	ATC	Microscope inverted with DC-16 camera
9	Washing Area	Two Vertical autoclave
10	Instrumentation Lab	Water purification system (Milli-Q+ Elix and pre-filtermachine)

Patent Granted

- 1) Indian Patent No.: 407335 Co-Delivery Of Baclofen & Lamotrigine Via Plga Nanoparticle
Kuldeep Nigam, Amit Tyagi, Shweta Dang. Date of award of patent 22-09-2022
- 2) Indian Patent No.: 424890 Synergistic effect of temozolomide and phytocompound in human glioblastoma multiforme cell lines M. Gautam, R. Gabrani. Date of Award of Patent 13-03-2023

Patents Filed/Published

- 3) Indian Patent Application No PAN 202211060672 Syzygium Aromaticum Extract Compounds As Trimethylamine Inhibitor In Diabetic Cardiomyopathy Ms. Shivani Singhal and Prof. Vibha Rani Date of filing 25-10-2022
- 4) Indian Patent Application No PAN 202211064813 Novel Antimicrobial Metabolites Obtained By A New Processing Method From Rare Actinobacterium Dr. Nidhi Srivastava and Dr. Indira Date of filing 12-11-2022
- 5) Indian Patent Application No. PAN 202311004273 Protamine Sulfate Coated Paroxetine Plga Nanoparticles And Method Of Preparation Thereof Ms. Surbhi Sharma and Prof. Shweta Dang Date of filing 03-02-2023

- 6) Indian Patent Application No. PAN 202211072496 A Process To Inhibit Mycobacterium Tuberculosis Isocitrate Lyases Through Vasicine Dr. Vibha Gupta, Dr. Harpreet Singh and Ms. Monika Antil Date of filing 15-12-2022

Incentives to faculty and Research scholar

As per the policy of JIIT to motivate and encourage the researchers and innovators:

- 1) A cash reward of Rs.Two Lakhs has been given to the faculty Prof. Shweta Dang and reward of Rs. One Lakh was given to the PhD scholar Dr. Kuldeep Nigam who assisted Prof. Shweta Dang in the work leading to the grant of patent.
- 2) A cash reward of Rs.Two Lakhs has been given to the faculty Prof. Reema Gabrani and reward of Rs. One Lakh was given to the PhD scholar Ms. Megha Gautam who assisted Prof. Reema Gabrani in the work leading to the grant of patent.

Department of Computer Science & Engineering and Information Technology (CSE/IT)

The Department of Computer Science & Engineering and Information Technology is a leading department of Jaypee Institute of Information Technology (JIIT), Noida which is a UGC approved, AICTE approved, NAAC accredited & NIRF ranked Deemed to be University.

The vision of the department is to be a Centre of Excellence for providing quality education and carrying out cutting edge research to develop future leaders in all aspects of computing, IT and entrepreneurship. The missions of department are:

1. To offer academic programme with state-of-the-art curriculum having flexibility for accommodating the latest developments in areas of computer science and IT.
2. To conduct research and development activities in contemporary and emerging areas of Computer Science & Engineering and IT.
3. To inculcate IT & entrepreneurial skills to produce professionals capable of providing socially relevant and sustainable solutions.

The department aims to excel in pivotal areas of computing and IT, such as AI, machine learning, cloud computing, big data, and IoT. Led by esteemed visionaries, it's committed to offering top-tier education, fostering leaders in IT, and nurturing professionals, researchers, and entrepreneurs. With over 100 experienced faculty members, 80% holding Ph.D.s, and the rest in advanced stages of their doctoral programs, the department boasts 47 cutting-edge labs equipped with state-of-the-art facilities. Its primary goal is to facilitate research, innovation, and skill enhancement in emerging domains like cybersecurity, data analytics, blockchain, and more.

The distinctiveness of the CSE&IT department is also reflected in placement. We aim not only to produce skilled IT manpower that are employable only but to prepare IT manpower which are ready to serve industry for some value addition to their employer to become the future leader. It is a desirable skill set as demanded by the IT industry's who are offering

high packages (>20 LPA). More than 30% students of CSE & IT bagged 7 digits package offered by more than 52 companies (out of 180 recruiters). This year, the highest package offered was as high as INR 82.89 Lac by Atlassian, Followed by 55.38 Lac by Adobe, 51.03 by Microsoft, 50.4 by google India etc. Average package offered to CSE and IT students is more than 12.67L per annum. The placement highlights of 2022-2023 are as follows:

Highest Salary Package Rs 82.89 Lacs by Atlassian (01 Offer)

- 719 are total offers
- 18 companies offer packages above 25 Lacs to 82.89 (59 offers)
- 38 companies offer salary Package of Rs 12 to 24.99 Lacs (97 Offers)
- 68 companies with packages 6 to 11.99 (340 Offers)

Graduates command respect globally, contributing to top programming platforms and showcasing JIIT as a premier engineering institution. The alumni, exceeding 10,000 successful professionals, hold positions in major IT industries and top universities worldwide, supporting and mentoring current JIIT students.

The curriculum evolves continuously, integrating insights from industry experts and scholars, and emphasizes practical assignments and active learning experiences in labs. Projects cover diverse fields like AI, cloud computing, information security, and students often publish papers based on their project work. Seniors mentor juniors, graduates secure excellent placements, and many pursue higher studies or venture into their own start-ups. The alumni actively engage by offering lectures, curriculum feedback, mentoring, and personal guidance to current students.

➤ **Facilities Including labs**

Department has total 47 labs, which are equipped with state of the art computing facility and infrastructure requirement.

“Launch of Brain-Computer Interface (BCI) Lab at JIIT. This cutting-edge facility will be the breeding ground for the development of brain-controlled games, as well as the creation of innovative projects such as lighting systems, line-following robots, drones, and many more. This event marks a significant milestone in our journey towards neuroscience advancement and human-computer interaction”.

Department of Electronics & Communication Engineering (ECE)

Seeking world class excellence in the field of Electronics & Communication Engineering by imparting quality Education and promoting Research is the main objective of ECE Department.

The Department of Electronics and Communication Engineering was established in the year 2001, now extended to 73 faculty members which includes 4 Professor, 13 Associate Professors and 56 Assistant Professors. Most of the faculty members have completed their Ph.D. degrees and have master's degrees from renowned IIT's, NIT's, IIIT's and other reputed universities. It is really a matter of great pride that the department is having a team of highly embellished and motivated faculty having rich and varied experience in industry, research as well as academia. Our strength reflects:

- Engineering Knowledge
- Problem Analysis
- Design/Development of solutions
- Modern tool usage
- Communication

The highly dedicated and committed faculty keep themselves abreast of the latest technology and are integral part of transfer of learning by involving students even in high end research and related projects in a multitudinous thrust areas such as VLSI design, Telecommunication, 4G & 5G Cellular Technologies, Communication Channel Modeling, Free Space Optical Communication, Integrated Antennas, Cognitive Radio, Signal Denoising, Device Modeling, Digital Filter Design and Applications, Digital System Testing, Analog IC Design, VLSI-DSP Architecture, Semiconductor Memories, Embedded System Applications etc. Additionally, students will have the ability to analyze, design electronics and communication applications using software tools like, pSpice, XYLINX, MATLAB, Python and other related software's like Cadence.

The budding technocrats and technology professionals are also encouraged to make a research foray into diverse interdisciplinary courses such as Medical Imaging, Renewable Energy, Smart Grid, Image and Pattern Recognition, Biometric, Image Forensics, introduction of Machine Learning and Robotics etc., ranging from practical implementation to theoretical investigations. The department regularly conducts a series of Workshops, Conferences and Faculty Development Programs to keep the faculty and students updated with recent trends in electronics and communication engineering.

The department has created a collaborative atmosphere that encourages the free interchange

of ideas, allowing for the growth of research, creativity, innovation, and entrepreneurship, as well as ensuring that students reach their maximum potential.

➤ Faculty activities to include

The ECE program provides students with broad-based fundamental knowledge to enable them to go further in any of their chosen field, and also to allow them to specialize in rapidly developing new technologies. Laboratory work is given utmost importance in the department. All the laboratories are equipped with sufficient instruments and software tools to enable the students to perform design

oriented experiments and test their designs by computer simulations.

Different laboratories set up by the department are:

- Engineering Drawing and Design Lab
- Engineering Workshop
- Basic Electronics Lab
- Electronic Devices and Circuits/ Analog and Digital Electronics Lab
- Electrical Machine and Instrumentation Lab
- Communication System Lab
- Advanced Communication lab
- Embedded System Lab
- VLSI/VHDL Lab
- B.Tech Project Lab
- Modelling and Simulation Lab (PG Lab 1)
- VLSI Design Automation Lab (PG Lab 2)
- IOT Lab
- Machine Learning Lab
- Signal Processing Lab

Centres:

- Centre for Innovation in VLSI and Smart Systems
- Centre for MEMS Design
- Centre for UAV and Electronic Border Security

Centre for MEMS Design

This centre was set-up in the year 2009 as a part of institute's response to launch MEMS activity supported under National Program of Materials for Smart Sensors (NPMASS) by Govt. of India. The

program centers around collaborative research efforts related to MEMS and smart sensors of the Department of Electronics and Communication Engineering, Department of Physics and Material Science and Department of Biotechnology of our institute. Research work carried out in this center includes Design, Characterization and Modeling of On-Chip Inductors on Silicon Substrate; SAW Oscillator for Temperature/Gas Sensor.

Centre for Innovation in VLSI and Smart Systems

The centre is established for research promotion and industrial collaboration. This centre serves as a central facility for VLSI and Embedded systems. The centre will work on the emerging technologies of VLSI, Internet of Things (IOT), AI and Embedded Systems through democratization of innovation, standardization, realization of prototype and products which leads to better job prospect, Incubation and overall development. Centre offers complete chip design expertise from RTL to GDSII implementations upto 22nm technology node including pre silicon testing & FPGA/Simulation-based prototyping. Presently we have softwares like Synopsis TCAD and Design Verification Tool, Mentor Graphics, Vivado, etc. which cover most of the design and verification.

Centre for UAV and Electronic Border Security

The Centre of Excellence is established in the area of Unmanned Aerial Vehicle and Electronic Border Security. These areas have a great potential for research and innovation. The centre will be setup for finding solutions to any problem in these domains but initially some objectives have been identified to begin with. The three objectives currently identified for the proposed centre are:

1. Compact smart antenna system design for border security
2. Security and Privacy issues using Blockchain for decentralized multi-drone system and Power optimization
3. Low Flying Drone Detection using Acoustics/ RADAR and Design of an integrated System

Important additions made in Labs

Following instruments of different labs were purchased (1 July 2022 to 30 June 2023):

Department of Humanities & Social Sciences

"The calling of the humanities is to make us truly human in the best sense of word."- J. Irwin Miller. The arts and humanities define who we are as a people. Humanities courses often seem impractical, but they are important because they broaden our imagination and challenge our mind to become more interactive and more responsive. "I fear the day that technology will surpass our human interaction, the world will have generation of idiots." -said Albert Einstein. Embracing this idea, the Department of Humanities and Social Sciences at Jaypee Institute of Information Technology ready to take all necessary steps for making students a good human in true sense. The Department of Humanities and Social Sciences, established in Jaypee Institute of Information Technology in 2001 is a centre of excellence in the field of IT education and training, is a source of change-facilitators who serve to complement the existing and emerging educational programs by imparting professional and behavioural competencies. The department constitutes an intellectual domain of knowledge pertinent to communication skills, individual and group behaviour, psychology, sociology, economics, finance, marketing, entrepreneurship, culture and knowledge management.

The undergraduate courses aim at making the students aware of the various issues related man and society and to sensitize them towards community needs. The Post-graduate level course prepares the students for the professional world. The Department also runs ethics and value-added courses like Theatre & Performance, Translation & Translation Studies and Effective Tools for Career Management & Development for the students to prepare them for a better future.

➤ **Laboratories:**

The Department possesses well-equipped language and psychology laboratory.

Language Laboratory

Language Laboratory has been established in January 2017. Five software applications have been purchased by the department which would cater to teach different linguistic requirements pertaining to diverse professional pursuits and examinations. The lab has 31 PCs with one Teacher console and 29 Students’ terminals. The Lab is fully equipped to teach 3 other foreign languages viz. French, German and Chinese apart from English Language in British, American and Indian Accents.

In this academic year, tutorial classes have been conducted every week for B.Tech 1st year students registered in English. The students have learnt the nuances of pronunciation, have been trained in comprehension of British accent, American accent and Indian accent of English and have learnt to speak the correct English with proper intonation, stress and rhythm.

The laboratory has the following items:

Psychology Lab

Psychology Lab caters to developing the psychological understanding of human minds around us through various tools and mechanisms. The development of professional skills begins with the student contacting prospective sites and arranging for a semester-long experience that involves observation and participation in the activities. In addition to cultivating professional relationships and learning about the complexities of those relationships, students have the opportunity to discover if a particular site experience matches their own strengths and interests. As a result, the practical program facilitates the decision-making process for students. Further the practical program emphasizing and strengthening ties to the surrounding community.

The purpose of the psychological testing is to provide an opportunity to develop practical knowledge and skills. After studying this, the students are able to learn how to interact with others and understand as to how their features of personality influence others. They can also identify how psychologists’ study human behaviour and how this knowledge can be used to explain, predict, and influence behaviour. They can think

critically and are able to analyze the empirical data. Further students can assess the significance and practical use of testing. The following testing tools are available in the Psychology Lab:

Department of Mathematics

Mathematics has an important role to play in diverse domains of science, engineering and technology. Keeping this in view, the Department of Mathematics at JIIT has a vision to be a centre of excellence in teaching and research in basic and applied areas of Mathematics. The first mission of the Department is to offer academic programmes and courses in contemporary and emerging areas of Mathematics and its applications for the development of analytical and problem-solving skills. This is done by offering a large number of core, elective and value-added courses for B. Tech., M. Tech., B.B.A., B.C. A. and the doctorate programmes. In addition the Department also runs B. Sc. (Computer Science), M. Sc. (Mathematics) and Ph. D. programmes.

The second mission is to carryout quality research in emerging areas of Pure and Applied Mathematics. From the inception, the Department has had a great passion for research and development. In their pursuit for research, the faculty members have covered a vast area such as Fuzzy Topology, Hydrodynamic Stability, Fixed Point Theory, Computational Continuum Mechanics, Computational Fluid Dynamics, Information & Coding Theory, Soft Computing, Numerical Methods, Exact Solutions & Symmetries for Nonlinear Systems, Image Processing, Queueing Theory, Approximation Theory and so on. The entire teaching faculty is actively engaged in research in their respective fields and a significant number of research papers are being published every year in the various journals of repute.

The third mission is to foster interaction with national and international institutions for enrichment, application and dissemination of knowledge in diverse areas of

Mathematics. The field of mathematics however is constantly evolving to the ever changing need and challenges of its practitioners. Therefore, we also need to update ourselves continuously through various activities such as research work, workshops, faculty development programs, guest lectures and conferences. The Department successfully organises international conferences, Faculty Development Programmes (FDP), Teacher’s Enrichment Workshops (TEW) Short Term Training Programmes (STTP) and other workshops with partial funding from the reputed agencies like CSIR, DST and DRDO.

Department of Physics and Materials Science & Engineering

UG LAB

UG LAB

Department of Physics and Material Science and Engineering is trying hard to become one of the pioneer departments in the field of teaching and research in the fundamental as well as applied areas of Physics and Materials Science since its inception in 2001. At present, department is actively involved in teaching of various courses for the different UG and PG programs of engineering. Students graduated from the department have been successful in achieving faculty positions in reputed institutes and organizations and many of them have received prestigious international and national doctoral and post-doctoral fellowship such as Japanese Society for the Promotion of Science (JSPS, Japan), Kothari Fellowship (DST, India) and National Post-doctoral Fellowship (DST, India). The department is committed to maintain high standards of teaching and research. With the aim of enhanced interaction of the faculty with the global research community, department regularly organizes national/international workshops and conferences with active participation from all over the world. Faculty members as well as research scholars of department enthusiastically participate in various academic and research activities held in India and abroad. Besides, the department organizes Faculty Development Program (FDP) every year and frequently invites external experts for delivering talks in the department. With the hard work and firm determination, faculty and students of department could receive several awards and recognitions. The faculty members are regularly invited to deliver talks at various reputed national and international institutes and prestigious national and international conferences. The faculty members are also invited as experts and examiners in other institutes and organizations.

➤ Faculty activities

In order to facilitate curricula-based Physics experiments for B. Tech. students, department has two well equipped laboratories. Moreover, to conduct research on synthesis and characterization of materials, there are three advanced labs for M.Sc. and Ph.D. scholars of Physics and Materials Science & Engineering. These laboratories are equipped with many high-end facilities for PG and PhD students. Some important equipment/ research facilities are enlisted as follows:

➤ **Important additions made in Labs**

S. No.	Instruments
1	Threaded Autoclave C-25ml ➤ Rs. 13364.68
2	Software: Origin Lab professional V2022b ➤ Rs. 79800.00
3	Nitrogen cylinder ➤ Rs. 28072.00
4	High temp. environment tube (single zone) furnace (upto 1400°C) ➤ Rs. 138105.00
5	Overhead shelf ➤ Rs. 112100.00
6	Time Tagger Ultra value edition ➤ Rs. 1489897.50
7	Mixed Signal Oscilloscope ➤ Rs. 855500.00
8	Single photon detector for free space detection ➤ Rs. 2337080.00
9	Workstation ➤ Rs. 329999.00

- **International Conference on Advanced Materials and Nanotechnology (ICAMN-2022) on 22-24 December 2022**

2nd International conference on Advanced Materials and Nanotechnology (ICAMN-2022) has been organized by the Department of Physics and Materials Science & Engineering, Jaypee Institute of Information Technology, Noida-201309, India during Dec. 22-24, 2022. ICAMN-2022 has covered almost all aspects of Materials and its applications in the form of bulk and Nanotechnology. Total 235 abstracts had been submitted. Out of these, 115 quality papers have been accepted for publication in Materials Today Proceedings. Day-1 i.e. Dec. 22, 2022, Session-1: Under the chairmanship of Prof. D.K. Rai, Prof. B.R. Mehta and Prof. Anirban Pathak respectively in all these parallel sessions, 06 Keynote talks were delivered by Prof. Syama Rath, University of Delhi, Prof. Sateesh Krishnamoorthy, Open University, UK and Prof. Zakir Hossain, IIT Kanpur, Prof. Silke Chris, IKTS, Germany, Prof. Yogendra Mishra, South Denmark University, Denmark, and Prof. Udo Schwingenschlogl, King Abdulla University of Science and Technology Saudi Arabia, followed by 03 invited and almost 55 oral presentations. Day-2 i.e. Dec. 23, 2022, Session-2: A plenary Talk on Successes and Challenges in Van der Waals Epitaxy of Transition Metal Dichalcogenides was delivered by Prof. Mathais Batzill, University of South Florida, USA, followed by three parallel sessions chaired by Prof. Zakir Hossain, Prof. S.P. Purohit and Dr. Nirpendra Singh where 03 Keynote talks, one in each parallel session were delivered by Prof. Rajesh Kumar Indian Institute of Technology Indore, Prof. Debashish Kulia, North Carolina A & T State Univ. USA and Dr. Pratistha Pandey, Head Infrastructure, DST India followed by 03 invited talks and almost 20 oral presentations. Day-2 i.e. Dec. 23, 2022, Post Lunch Session-3: In this session, a plenary talk was delivered by Prof. Philippe Colomban, Sorbonne-Universite, France followed by a Keynote talk on Processing of Variety of Materials using Microwave Energy by Prof. D.K. Agarwal, Penn State, Material Research Institute UK and 03 invited along with 42 oral presentations. Day-3 i.e. Dec. 24, 2022, Session-1: In this session, 02 Keynote talks by Prof. Somnath C Roy, IIT Madras, and Dr. Oommann Varghese, University of Houston USA, followed by 03 invited and 55 oral presentations were held.

- **One-week faculty development program (FDP-2022) on Recent Trends in Optics and Plasma Physics on 21-27 July 2022**

Department of Physics and Materials Science and Engineering organized one-week faculty development program on Recent Trends in Optics and Plasma Physics from 21st to 27th July 2022. In this FDP, 101 external participants from

premier institutes and 30 internal participants were registered. Around, 20 expert talks by the eminent speakers from academia and industry were delivered in the FDP. Honorable Pro Chancellor Prof. S. C. Saxena, Vice Chancellor Prof. Y. R. Sood and Director Research Innovation & Development Prof. B. R. Mehta inaugurated the FDP. Dean Academic & Research Prof. D. K. Rai and HoD PMSE Prof. Anirban Pathak were also present in the inaugural function of the FDP. Dr. Rajesh Kumar, Associate Professor, Physics Department, IIT Roorkee delivered the first talk on 21st July 2022 in the FDP. The title of his talk was Integrated hybrid silicon photonic platform for switching devices. The last talk on 29th July 2022 was delivered by Dr. Anindita Banerjee, Adjunct Scientist, Corporate R&D, C-DAC. The title of her talk was Quantum computing and quantum communication.

- **JIIT Student Conference on Optics and Photonics-2023 (JSCOP-2023) on 15-16 April 2023**

The desk registrations were being held from 12-13 April ,2023. On April 15th 2023, JSCOP-5.0 commenced its official inauguration ceremony with the lighting of the lamp, graced by the esteemed presence of Vice-Chancellor Prof. B.R. Mehta from JIIT, Noida. Joining him were Prof. C.M. Chandrashekhar, our distinguished speaker for the day, and Prof. D.K. Rai, the Dean of Faculty Affairs at JIIT, Noida. Day 1, 15th April 2023, Session 1: PLENARY TALK 1 on “Quantum Computing with Photons” by Prof. C.M. Chandrashekhar, Faculty at Institute of Mathematical Sciences, Chennai, Member at the Institute for Quantum Computing, Canada, Recipient of Ramanujan Fellowship. Session 2: PLENARY TALK 2 on “Second- order nonlinear optics: A few applications and novel effects” by Dr. Ritwik Das, Associate Professor, IIT Delhi. Session 3: BLIND CODING CONTEST: This unique coding competition was an escape from the monotonous coding routines of the students. In this, participants were required to type the code with their monitors off utilizing their typing and problem-solving abilities. Session 4: CREATE-CODE-CRACK it (CCC). The ECE competition aka CCC, engaging and hands-on event that challenges participants to demonstrate their skills in designing and constructing electronic circuits. Day 2, 16 April 2023, Session 1: PLENARY TALK 3: On “Terahertz Metamaterials” by Dr. Gagan Kumar, associate professor at department of physics, IIT Guwahati. Session 2: PLENARY TALK 4: on “” by Dr. Mainuddin, professor, Department of Electronics and Communication engineering, Jamia Millia Islamia, New Delhi. Session 3: IDEATHON: The business model competition invited participants to present their innovative ideas as PowerPoint presentations to the judge and the top team received the prizes. Session 4: SQUID GAME: The Squid Game competition in college was a thrilling and immersive event inspired by the popular Netflix series. Participants engaged in a series of 4 intense challenges and games that tested their physical, mental, and strategic abilities. Session 5: HACKATHON: “Code of Duty” a hackathon that aims at bringing together a group of technology enthusiasts to collaborate and solve a problem.

JAYPEE BUSINESS SCHOOL

Jaypee Business School (JBS) was started in the year 2007 as a constituent of Jaypee Institute of Information Technology (declared deemed to be University u/s 3 of the UGC act). Now it has established itself amongst the new generation of B-schools in India. The BBA and MBA program of JBS prepare students for effective management, leadership, organizational, and adaptive roles in the evolving business landscape. These programs not only impart theoretical knowledge but also cultivate practical skills in students.

➤ IT Infrastructure and Facilities

JBS stands out among Indian B-Schools with its cutting-edge computing resources and comprehensive campus-wide network infrastructure. It boasts a Central IT Infrastructure dedicated to providing robust IT support. The primary objectives of the Server Room (IT Infrastructure Center) are as follows:

- To offer easily accessible and high-quality computational facilities to cater to the academic, research, and recreational needs of all campus members.
- To establish and maintain IT Infrastructure and application software.
- To provide introductory and advanced training to users and develop skilled manpower for IT Infrastructure management (including Servers, Desktops, Data Security, and the University Network).
- To support the University's computerization initiatives.
- To conduct in-house research and development activities.
- To serve a user base comprising over 4500 individuals, including undergraduate

and postgraduate students, research scholars, faculty, and staff of the University.

- To take charge of developing and implementing application software for various University requirements, such as finance, payroll, results, MIS reports, and an electronic attendance system, among others.

➤ **Facilities including Labs**

Jaypee Business School maintains two computer labs, offering a combined computational capacity of over 104 interconnected computer nodes connected through a LAN network. Each of these computers/nodes is equipped with an Intel i7 processor and 16 GB of RAM. They operate on the Windows 2010 platform and come equipped with cutting-edge software such as SPSS, AMOS, and various open-source tools including Tableau Desktop version. At JBS, significant emphasis is placed on the utilization of these laboratories. While they serve as a valuable resource for skill development and practical application of various concepts, tools, and techniques, their primary objective is to nurture broader professional competencies through hands-on, collaborative learning experiences.

CENTRES

Learning Resource Centre (LIBRARY)

The Learning Resource Centre (LRC) at JIIT Noida is an excellent repository of learning resources. It can accommodate about 700+ users at a time. It has more than 80 computer nodes with high speed Internet & Intranet connectivity. It is fully integrated with the latest barcode technology and international standard open source library management software “KOHA”. Users can access bibliographic details of the LRC resources through OPAC anywhere, thus providing 24 hours access a day. The LRC consists of latest collection of textbooks as well as reference books, national as well as international peer reviewed journals, magazines and electronic resources on subject areas covered by the academic curricula of the Institute and other universal knowledge. LRC has also made provisions to subscribe full text science and technology on-line journals and other national and international journals in printed form. It is also an active member of Developing Library Network (DELNET) and provides inter-library loan services to its users. LRC has subscribed Anti-Plagiarism Software “Turnitin” to its users. The open access system has been adopted at all service points where users may browse and select material of their choice. LRC has implemented an anti-theft electromagnetic system at its main gate. It has undertaken two major projects for development of institutional repository for maintaining intellectual output of the institute i.e. LRC DRS and dynamic LRC website <https://www.jiit.ac.in/lrcjiit/>. LRC keeps itself updated Global practices with latest organizing book exhibitions/ conferences/ workshops from time to time.

IT INFRASTRUCTURE CENTRE

JIIT is one of the few Indian universities, which can boast of its state-of-the-art computing resources and network across the campus.

JIIT has Central IT Infrastructure Center for IT support. The main objectives of the dedicated Server Room (IT Infrastructure Center) are to provide easily accessible and excellent computational facilities, support to all members of JIIT on all aspects of academic, research and recreational requirements, to implement and maintain IT Infrastructure and application software, to impart introductory and advanced instructions to users, generate trained manpower to maintain IT Infrastructure (Servers, Desktops, Data Security, University Network), to provide support to Institute computerization efforts, to do in house research & development, and to serve a user population of more than 4600 users consisting of undergraduate, postgraduate, research scholars, faculty and staff of the University.

In addition, it also owns the responsibility to develop and implement application software for various needs of University like finance, payroll, results, MIS reports and electronic attendance system etc.

General Computing Facilities.

Dedicated and secured Data centre. The Server Room is equipped with Intel Nehalem Quad-Core Servers for high performance windows 2008R2/2012/2016/2019 Computing Server, Intel Xeon servers with multiple processors, High end Intel Pentium servers with multiple processors, various engineering and technical computing software's, network management tools, Client/Server Database computing System connected over a switched fast Ethernet with Optical Fiber backbone. All computers are a part of Windows Domain Controller with support of additional domain controllers. For our printing needs we have 104 HP printers which includes Heavy Duty Network Laser Printers, Desktop Printers and Multi function Printers. Central Antivirus server provides security for entire network.

Database Service.

The Server Room has a Client/ Server Database Computing System- Oracle 11g with Developer 2000 version 6.0. At the front end, the platform is Windows XP/Widnows7/ Windows 8.1/Windows 10 and at the back end, Intel Xeon basedRedHat Enterprise Linux.

Network Services.

The whole campus is interconnected through a highly secured Virtual Private Network, where over 3000 PCs are connected to the internet through Internet Leased link connections whilst 36 hi-end servers power the network for 100% redundancy and efficient data management. Completely automated High end Biometric systems for attendance of faculty and staff. Eight biometric reader machines have been installed in

different academic blocks for capturing the attendance of the faculty and staff. 58 bullet cameras, 194 dome cameras, 04 CS Mount camera, 22 DVRs to monitor the various buildings including Academic areas, Faculty residence, Hostels and grounds.

The institute Local Area Network (LAN) is a state of the art switched network with Fiber Optics Backbone and enhanced CAT6/CAT6a UTP for providing seamless connectivity. It consists of more than 8000 network access points spread using 109 Cisco Switches, 4 Routers, 288 Wireless access points and 28 VLANs to provide the needed scalability, security and traffic control. The network access is provided to every room in student's hostel, faculty & staff residence, doctors at JIIT Hospital, cafeteria & mess (Annapurna), laboratories and rooms in guest houses.

JIIT Campus has an excellent Internet connectivity, provided through a router, Sophos firewall. We have 1.10 Gbps (1:1) leased circuit from BSNL NKN (1 Gbps) and AIRTEL (10Mbps) on OFC. Apart from Internet and Intranet many more services including mail, web, library book search, domain name, antivirus and software upgrades are being provided over this network.

JIIT has SOPHOS XG-550 and Sophos XG 430 Firewall & Proxy Server in HA mode installed for ISPs load balancing, fail over and Malware/ Spyware / Spam detection, content filtering and anti-virus protection at the gateway level. Lotus Domino is being used by JIIT for its official mailing services.

Apart from above all Lecture Theaters and major class rooms are equipped with Projection System.

INTERNATIONAL LINKAGES

The Institute has developed collaboration with the following foreign educational Institutes to enhance academic development and promote research:

Collaborating University/ Organization	Salient Features
Charles Sturt University, Australia	<ul style="list-style-type: none"> To develop formal arrangements for participation of students from one Institute to the academic programs of the other Institute; The recognition of advanced standing of entry to the respective programs of the parties by students of the other party; The development of collaborative research projects and programs; and The development of digital online and blended mode courses in Science, Engineering and Management programs.
The University of Malta	To enhance better relations & exchange of expertise to boost academic development for the general interest of students & staff.
University of Florida, Gainesville, USA	<ul style="list-style-type: none"> To enhance the academic interchange between the two institutions, the parties desire to promote exchange between the faculty and students as well as the exchange of academic and research information. Specific projects in an area of educational interest will be selected as a result of coordination between University of Florida and Jaypee. University of Florida has launched a 8th Semester programme for students of Jaypee Group of Universities- Under this 8th semester students will be selected to spend one semester at University of Florida to earn a Senior Certificate in Computer Science and Engineering. Successful completion of this Certificate requires students to complete a minimum of 12 credits of approved courses at University of Florida with a grade of C or better on each course. University of Florida is offering engineering professionals located in India, the opportunity to earn a Master of Science Degree through Electronic Delivery of Graduate Engineer program ("EDGE Program") at JIIT in subject areas- Civil and Coastal Engineering, Computer & Information Science Engineering, Electrical & Computer Engineering, Environmental Engineering Sciences, Materials Science & Engineering and Mechanical & Aerospace Engineering.

ACADEMIC ADMINISTRATION

1. Admission for Academic Year 2022-23

➤ **UG Program:**

The admissions in the academic session 2022-2023 were carried out through a counseling process conducted by the Institute in two modes, based on merit drawn on All India JEE (Main) Ranking 2022 and merit drawn on basis of 10+2 marks.

➤ **PG Program:**

The admission for M. Tech programs was based on Post Graduate Entrance Test conducted by the Institute /GATE score for eligible candidates.

The admission to MBA program was based on CAT/MAT/XAT/CMAT/GMAT/ATMA score followed by Written Communication Skill Test and Group Discussion/ Interviews.

➤ **PhD:**

The selection was done through written test and interview of short listed scholars, based on their qualifications and credentials. Candidates who had qualified UGC-CSIR/NET exams were exempted from the written test.

➤ The admission status in various programs for academic year 2022-23 is as follows:

In the cultural realm, it's a melting pot of music, dance, art, and theater, where individuals showcase their artistic flair and cultural heritage, fostering a spirit of inclusivity and unity among participants.

The event featured a spellbinding performance by the renowned Chaar Hazaari, whose dynamic stage presence and diverse musical repertoire left an indelible mark. The festivities continued with an energetic DJ set by DFAQ and DJ Muneca, turning the dance floor into a pulsating celebration. In addition to these headline acts, various college hubs contributed to the fest's success through a diverse range of activities, from theatrical performances to interactive displays.

Converge 2023 was a resounding success, thanks to the collaborative efforts of the organizing committee, participating students, and the enthusiastic audience. The event not only showcased the extraordinary talent within the college but also provided a memorable experience for everyone in attendance. The fusion of music, entertainment, and creative expressions made this fest a standout moment in the college calendar.

5. **Title of the Event:** Farewell

A. **Dates and Duration:** 6th May 2023

B. **Faculty Coordinator(s)/Convenor(s):** Dr. Sandeep Chhoker and Dr. Vinay Anand Tikkiwal

C. **Report:** The college farewell, themed "Memories Unfold, Futures Begin," aims to bid a heartfelt adieu to graduating students. Through speeches and shared moments, it honors their achievements, fosters nostalgia, and instills excitement for the journey ahead. The objective is to strengthen bonds, creating a lasting connection between students, faculty, and the institution.

The farewell was a heartfelt blend of speeches expressing gratitude, cultural performances showcasing talents, and multimedia presentations evoking nostalgia. Graduating students received tokens of appreciation, and interactive activities fostered camaraderie. The event, marked by a reflective farewell address, encapsulated the essence of bidding adieu, creating a memorable and emotionally resonant experience for all.

The coordination for the Farewell showcased meticulous planning and seamless execution by the organizing team. The diverse lineup of engaging college hubs was a highlight, providing a range of entertaining activities. The team's effective management of logistics and schedules ensured a successful event, meeting objectives of fostering community spirit and creating memorable experiences for all attendees.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF THE BOARD OF MANAGEMENT

JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY
(DECLARED AS DEEMED TO BE UNIVERSITY U/S 3 OF THE UGC ACT, 1956),
A-10, SECTOR-62, NOIDA, U.P.

REPORT ON THE FINANCIAL STATEMENTS

WE HAVE AUDITED THE ATTACHED BALANCE SHEET OF JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY, [RUN BY JAYPEE INSTITUTE OF INFORMATION TECHNOLOGY SOCIETY (REGD.)], AS AT 31ST MARCH 2023 AND THE ANNEXED INCOME & EXPENDITURE ACCOUNT FOR THE YEAR THEN ENDED, AND A SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

MANAGEMENT IS RESPONSIBLE FOR THE PREPARATION OF THESE FINANCIAL STATEMENTS THAT GIVE A TRUE AND FAIR VIEW OF THE FINANCIAL POSITION AND FINANCIAL PERFORMANCE OF THE UNIVERSITY IN ACCORDANCE WITH THE INCOME TAX ACT 1961 ("THE ACT"). THIS RESPONSIBILITY ALSO INCLUDES MAINTENANCE OF ADEQUATE ACCOUNTING RECORDS IN ACCORDANCE WITH THE PROVISIONS OF THE ACT FOR SAFEGUARDING THE ASSETS OF THE UNIVERSITY AND FOR PREVENTING AND DETECTING FRAUDS AND OTHER IRREGULARITIES; SELECTION AND APPLICATION OF APPROPRIATE ACCOUNTING POLICIES; MAKING JUDGMENTS IN THE ESTIMATES THAT ARE REASONABLE AND PRUDENT; AND DESIGN, IMPLEMENTATION AND MAINTENANCE OF ADEQUATE INTERNAL FINANCIAL CONTROLS, THAT WERE OPERATING EFFECTIVELY AT THE

FOR ENSURING THE ACCURACY AND COMPLETENESS OF THE ACCOUNTING RECORDS, RELEVANT TO THE PREPARATION AND PRESENTATION OF THE FINANCIAL STATEMENTS THAT GIVE A TRUE AND FAIR VIEW AND ARE FREE FROM MATERIAL MISSTATEMENT, WHETHER DUE TO FRAUD OR ERROR

AUDITOR'S RESPONSIBILITY

OUR RESPONSIBILITY IS TO EXPRESS AN OPINION ON THESE FINANCIAL STATEMENTS BASED ON OUR AUDIT. WE CONDUCTED OUR AUDIT IN ACCORDANCE WITH THE STANDARDS ON AUDITING ISSUED BY THE INSTITUTE OF CHARTERED ACCOUNTANTS OF INDIA. THOSE STANDARDS REQUIRE THAT WE COMPLY WITH ETHICAL REQUIREMENTS AND PLAN AND PERFORM THE AUDIT TO OBTAIN REASONABLE ASSURANCE ABOUT WHETHER THE FINANCIAL STATEMENTS ARE FREE FROM MATERIAL MISSTATEMENT.

AN AUDIT INVOLVES PERFORMING PROCEDURES TO OBTAIN AUDIT EVIDENCE ABOUT THE AMOUNTS AND DISCLOSURES IN THE FINANCIAL STATEMENTS. THE PROCEDURES SELECTED DEPEND ON THE AUDITOR'S JUDGMENT, INCLUDING THE ASSESSMENT OF THE RISKS OF MATERIAL MISSTATEMENT OF THE FINANCIAL STATEMENTS, WHETHER DUE TO FRAUD OR ERROR. IN MAKING THOSE RISK ASSESSMENTS, THE AUDITOR CONSIDERS INTERNAL CONTROL RELEVANT TO THE INSTITUTE PREPARATION AND FAIR PRESENTATION OF THE FINANCIAL STATEMENTS IN ORDER TO DESIGN AUDIT PROCEDURES THAT ARE APPROPRIATE IN THE CIRCUMSTANCES, BUT NOT FOR THE PURPOSE OF EXPRESSING AN OPINION ON THE EFFECTIVENESS OF THE ENTITY'S INTERNAL CONTROL. AN AUDIT ALSO INCLUDES EVALUATING THE APPROPRIATENESS OF ACCOUNTING POLICIES USED AND THE REASONABLENESS OF THE ACCOUNTING ESTIMATES MADE BY MANAGEMENT, AS WELL AS EVALUATING THE OVERALL PRESENTATION OF THE FINANCIAL STATEMENTS.

WE BELIEVE THAT THE AUDIT EVIDENCE WE HAVE OBTAINED IS SUFFICIENT AND APPROPRIATE TO PROVIDE A BASIS FOR OUR AUDIT OPINION.

OPINION

- A. IN OUR OPINION AND TO THE BEST OF OUR INFORMATION AND ACCORDING TO THE EXPLANATIONS GIVEN TO US, THE SAID ACCOUNTS WITH SIGNIFICANT ACCOUNTING POLICIES AND OTHER NOTES THEREON GIVE A TRUE AND FAIR VIEW:
- (i) IN THE CASE OF BALANCE SHEET, OF THE STATE OF AFFAIRS OF THE INSTITUTE AS AT 31ST MARCH 2023;
 - AND
 - (ii) IN THE CASE OF INCOME & EXPENDITURE ACCOUNT, OF THE SURPLUS FOR THE YEAR ENDED ON THAT DATE.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

- B. WE HAVE OBTAINED ALL THE INFORMATION AND EXPLANATIONS, WHICH TO THE BEST OF OUR KNOWLEDGE AND BELIEF WERE NECESSARY FOR THE PURPOSE OF OUR AUDIT.
- C. IN OUR OPINION PROPER BOOKS OF ACCOUNT AS REQUIRED BY LAW HAVE BEEN KEPT BY THE INSTITUTE. SO FAR AS APPEARS FROM OUR EXAMINATION OF THOSE BOOKS;
- D. THE BALANCE SHEET AND STATEMENT OF INCOME & EXPENDITURE ACCOUNT DEALT WITH BY THIS REPORT ARE IN AGREEMENT WITH THE BOOKS OF ACCOUNT;
